The Daydream Prophecies Poetry And Prediction:

The Daydream Prophecies Cain,2005-01-01 This first half of this book consists of seven long narrative poems These mini epics are the result of several reoccurring themes dreams and nightmares throughout the end of my teenage years Through the collage of insane imagery and ideas I began to see an insight I realized that if I stood back far enough all those crazy little dots made a not so familiar face So I purged this puzzling face into the seven narrative poems They themselves represent the journey of a soul traveling beyond reality as we have come to know it A journey endured by a man in a ten foot by ten foot cinderblock cell in an insane asylum His home since he was ten years old I never could decide if he was dead during his soul s journey or if that was what made him insane The second half of the book is a collection of poetry and songs that were written all throughout my life Whether you re looking for something romantic political or just plain funny you will find it here Holding all of this together are several pages of art that I have drawn or assembled to represent each aspect of the book

Implications for Insurance Robert Irwin Mehr,Seev Neumann,1972 Apocalypse Soon? Stephen Francis Haller,2002 Using the doomsday scenarios of global warming nuclear winter and ozone depletion as examples Haller contemporary studies Wilfrid Laurier U Canada explores how one should judge the criteria for evaluating possibilities of catastrophe His central concern is finding the most rational approach to such possibilities when there is no reliable estimate of the likelihood of catastrophe He suggests that even if one rejects epistemological and ethical arguments regarding possible disasters one should be convinced by Pascalian arguments suggesting a precautionary principle even in the absence of reliable evidence
