The Nature of Chinese Politics: From Mao to Jiang Jonathan Unger, 2016-09-16 This book describes and analyzes how politics among the Chinese leadership has operated and evolved from the period of Mao's court up to the present day. Part I explores politics under Mao and Deng. For this section, the five leading western analysts of elite Chinese politics—Lowell Dittmer, Lucian Pye, Frederick Teiwes, Andrew Nathan, and Tsou Tang—have contributed major papers that measure the empirical evidence against political science theory, recent Chinese history, and Chinese political culture. Part II explores and analyzes the ongoing changes in Chinese politics during Jiang's tenure and includes analyses by almost all the leading English language scholars in the field.

Symbolic Strategies and Political Empowerment Jun Zhao, 1996. **The Revolutions of 1989** Wolfgang Mueller, Michael Gehler, Arnold Suppan, 2015. Only a few people foresaw the sudden and momentous events of 1989. It contains chapters on the revolutions in all major countries of the former communist bloc as well as on the responses of all major international players. The first part examines the revolutionary events from above and from below in Eastern Europe as well as China and their backgrounds. The second part deals with Soviet and Western perceptions and responses. The third part focuses on the aftermath of the revolutions on societal transformations, the acceptance of the new Central European democracies by NATO and the EU, and on the memory of 1989.
