The Death of Ramón González Angus Lindsay Wright, 1992 **The Death of Ramon Gonzalez** Angus Wright, 1990 The Death of Ramon Gonzalez has become a benchmark book since its publication in 1990 It has been taught in undergraduate and graduate courses in every social science discipline sustainable and alternative agriculture environmental studies ecology ethnic studies public health and Mexican Latin American and environmental history Jacket *The death of Ramon Gonzalez* A. Wright, 1990 An Invitation to Environmental Sociology Michael Mayerfeld Bell, Loka L. Ashwood, 2015-07-01 This is not only the best environmental sociology text I ve used but it is the best text of any type I ve used in college level teaching Dr Cliff Brown University of New Hampshire Join author Mike Bell and new co author Loka Ashwood as they explore the biggest community of all and bring out the sociology of environmental possibility The highly anticipated Fifth Edition of An Invitation to Environmental Sociology delves into this rapidly changing and growing field in a clear and artful manner Written in a lively engaging style this book explores the broad range of topics in environmental sociology with a personal passion rarely seen in sociology books The Fifth Edition contains new chapters entitled Money and Markets Technology and Science and Living in An Ecological Society In addition this edition brings in fresh material on extraction between core and periphery countries the industrialization of agriculture the hazards of fossil fuel production environmental security and making environmentalism normal Together at the Table Patricia Allen, 2004-01-01 Everywhere you look people are more aware of what they eat and where their food comes from In a cafeteria in Los Angeles children make their lunchtime food choices at fresh fruit and salad bars stocked with local foods In a community garden in New York low income residents are producing organically grown fruits and vegetables for their own use and to sell at market In Madison Wisconsin shoppers select their food from a bounty of choices at a vibrant farmers market Together at the Table is about people throughout the United States who are building successful alternatives to the contemporary agrifood system and their prospects for the future At the heart of these efforts are the movements for sustainable agriculture and community food security Both movements seek to

reconstruct the agrifood system the food production chain from the growing of crops to food production and distribution to become more ecologically sound economically viable and socially just Allen describes the ways in which people working in these movements view the world and how they see their place in challenging and reshaping the agrifood system She also shows how ideas and practices of sustainable agriculture and community food security have already woven their way into the dominant agrifood institutions Allen explores the possibilities this process may hold for improving social and environmental justice in the American agrifood system Together at the Table is an important reminder that much work still remains to be done Now that the ideas and priorities of alternative food movements have taken hold it is time for the next even more challenging step Alternative agrifood movements must acknowledge and address the deeper structural and cultural patterns that constrain the long term resolution of social and environmental problems in the agrifood system **Tangled Routes**
