The Myth of Ham in Nineteenth-Century American Christianity S. Johnson, 2004-12-02 This monograph is an original study of what is commonly termed the American myth of Ham It examines black and white Americans recourse to the biblical character of Ham as a cultural strategy for explaining racial origins Previous studies in the area have been restricted to associating the Hamitic idea with pro slavery arguments whereas the thesis of this project reveals a fundamental irony black American Christians who reinforced the meanings of illegitimacy by appealing to Ham as the ancestor of the race Dobson

and Democratization Brett Ralph Klassen, 2010 Ask an evangelical where she would go for authoritative counsel and the response is more likely to be biblical than ecclesiastical in orientation Many evangelicals are uncertain about clerical authority in part because the international evangelical movement lacks a unifying authoritative church government The question is how do contemporary evangelicals select or identify religious authorities This project seeks to answer this question for American evangelicalism in particular It does so by juxtaposing the thesis of Nathan O Hatch's *The Democratization of American Christianity* with the rise to influence of child psychologist James C Dobson Hatch has argued that religious populism remains among the oldest and deepest impulses of American life Although Democratization is explicitly concerned with religion in the early republic Hatch concludes that a strong populist impulse continues to dominate American Christianity Parallels between Dobson's ascension and the Democratization thesis support Hatch's epilogic assertion In view of the similarities between Dobson's impact and that of his populist forbearers this project's reply to the question How do contemporary American evangelicals select authorities is By popular acclaim **The Riddle of Grace**
