The Dethronement Of Gold Towards A New Image Of Currencies:

The Dethronement of Gold: Towards a New Image of Currencies Samuel Scheps, 1971 **Deficits and Desires** Michael Tratner, 2002-03-01 This book examines the effects on literary works of a little noted economic development in the early twentieth century individuals and governments alike began to regard going into debt as a normal and even valuable part of life The author also shows surprisingly that the economic changes normalizing debt paralleled and intersected with changes in sexual discourse In Victorian novels sex and debt are considered dangerous activities that the young should avoid in order to save and invest toward eventual marriage and a home In twentieth century texts however it often seems acceptable to go into debt and engage in sex before marriage These literary representations followed social transformations as both economic and sexual discourse moved from the logic of saving and production to the logic of circulation In Keynesian economics and consumerism governments and individuals were actually encouraged to borrow and to spend more in order to increase demand and keep money circulating In twentieth century sexual treatises people were similarly encouraged to indulge their desires as pent up states were considered as deleterious to the physical body as they were to the economic In this book the author traces these social transformations by examining twentieth century literary works and films that are structured around contrasts between repressive and expansive forms of economics and sexuality He studies a range of authors including James Joyce F Scott Fitzgerald Virginia Woolf Ezra Pound Zora Neale Hurston and Frank Capra The book ends with the 1960s because after that decade deficits no longer seemed the cure for anything and the advocacy of sexual indulgence dwindled For half a century however the intersections of sexual and economic discourses created a sense that society was on the verge of a vast transformation The artists studied in this book were fascinated by such a prospect but remained ambivalent as it seemed that their dreams of escaping dull bourgeois life and ending repression were becoming true because of the influence of the crassest economic policies Law and policy in international business , 1975 *Liste mensuelle d'ouvrages catalogués à la Bibliothèque des Nations Unies* United Nations Library (Geneva, Switzerland), System Der Vereinten Nationen, Internationale Bibliographie Klaus Hübner, Jens Naumann, 1976 The British National Bibliography Arthur James Wells, 1972 **List of Recent Additions** Joint Bank-Fund Library, 1971 Library of Congress Catalog Library of Congress, 1970 **Library of Congress Catalogs** Library of Congress, 1976 Staff Papers , 1972
