

SUPERPOWERS IN COLLISION – FROM THE NEW COLD WAR TO NUCLEAR WAR?

As US–Soviet relations continue to deteriorate and as the arms race escalates, our outlook on world politics becomes easily confused and vulnerable to the superpowers' propaganda.

Here three leading commentators cut through the myths to tackle the most basic questions, analysing the roles of the United States, the Soviet Union and China in the deepening crisis:

- * What purpose has the cold war really served since the Second World War in American foreign policy?**
- * What did the Soviet Union expect to get out of detente, and why has it led instead to a new cold war?**
- * Why did China seek to make friends with the United States, and might Peking one day switch superpowers again?**

Britain, like the rest of Europe, has become dangerously entangled in the superpower struggle. 'If we hope to recover into our own hands the future of our own lives,' the authors stress, 'then the Dangerous Decade must also become the Decade of Debate.'

Informed and accessible, SUPERPOWERS IN COLLISION is a vital starting-point for that debate.
