

Did You Know

Agricultural Surfactants Market

is estimated to be US\$ 2.6 billion by 2032 with a CAGR of 7.2% over the forecast period (2022-2032)

The surfactants segment goes hand in hand with the crop protection chemicals, fertilizers, micronutrients, plant growth regulators, etc. Surfactants are used with herbicides, fungicides, insecticides, etc. that enables their function and utility. Thus, the increasing sales of crop protection chemicals have stimulated the demand for surfactants and the trend is expected to continue.

Adjuvants and Agrochemicals Paul N. P. Chow, 2018-01-18 Studies of Adjuvants involve many scientific fields from basic research of the chemistry through investigations into physiological effects and environmental impact to mixture formulation and field use These important areas are illustrated in these two volumes which are contributions from the First International Symposium on Adjuvants for Agrochemicals held in Brandon Manitoba on August 5 to 7 1986 A total of 200 participants from 19 countries met to discuss their common interest in adjuvant science technology and application It is the editors hope that these volumes will stimulate interest in and promote a better understanding of the chemical physiological and agronomic aspects of adjuvants as they relate agrochemicals In addition the revised Adjuvants for Agrochemicals A Selected Bibliography of World Literature in the English Language will be a valuable resource for agricultural researchers

and other users We hope that adjuvant research will lead to even safer more efficient and more economical use of chemicals in agriculture and forestry

Chemistry and Technology of Agrochemical Formulations A. Knowles,2012-12-06

Agrochemical products and adjuvants are of vital importance in agriculture to protect food and fibre crops from weeds insect pests and diseases in order to feed and clothe the growing world population In recent years there have been increasing pressures to produce agrochemical formulations which have a lower environmental impact and are safer in use Enormous changes have taken place in the chemistry and technology of agrochemicals over the last twenty years or so and this book provides a timely review of the most important area of technology in the development of new products This book covers issues around international product quality and safety standards and describes the current and likely future trends which will carry the industry forward into the next millennium It brings together well known international experts with many years of practical experience from agrochemical companies consultancies academic institutions and regulatory bodies Chemists and technologists involved in developing new or improved agrochemical formulations will find this book an essential reference in the course of their work The book will also be of interest to those working in research and development departments of raw material suppliers as a concise review of this important field
