

"THEY SLIPPED THE SURLY BONDS OF EARTH"

The British Commonwealth Air Training Plan (B.C.A.T.P.) was inaugurated in 1939 at the onset of the Second World War to provide air training for Commonwealth airmen, safely removed from active war zones. The Canadian Government sponsored this war-winning plan which produced approximately 140,000 airmen and 45,000 ground crew.

Six of the one hundred and seven Canadian B.C.A.T.P. airfields were located in this part of Ontario. No. 33 Air Navigation School at Mount Hope was established in 1941 in addition to No. 10 Elementary Flying School and No. 1 Air Wireless School. Between November 1941 and December 1943, sixteen R.A.F. servicemen in the Air Navigation School died while in training here and all but two were buried in St. Paul's Glanford Anglican Church Cemetery. A service of remembrance has been held annually for these men who lie far from home. In 2000, a Remembrance Garden was planted by the congregation and dedicated to the memory of these R.A.F. members.

Surly Bonds Of Earth:

Dietrich Bonhoeffer Larry Rasmussen, Renata Bethge, 2016-05-15 Dietrich Bonhoeffer 1906-1945 remains the most seminal theologian of those whose work was forged and tested in the worst years of the twentieth century. A German who loved his country and culture and who mourned its crimes and actively resisted them, his ethic was wholly contextual, attuned to what he must do in his own land as a disciple of Jesus Christ. He might have been surprised to find that a half century and more later his work has been widely appropriated by others in different circumstances for their exercise of Christian responsibility. This volume of essays is one example of Bonhoeffer's ongoing relevance. Rasmussen engages Luther, Barth, Niebuhr, Hauerwas, Yoder, and Berrigan as a way to illuminate aspects of Bonhoeffer's ethics. He also compares the post-holocaust theology of Rabbi Greenberg with Bonhoeffer's own treatment of divine presence and human responsibility in a world that has come of age. One essay, "The Meaning of the Theology of the Cross for Social Ethics in the World Today," pulls the main themes of the book together. This 2016 edition also includes a new chapter which relates Bonhoeffer's ethics to the current environmental crisis.

Earth Bound Brian Nelson, Features 365 readings, one for each day of the year. This unique daybook draws from Earth-based spirituality and all of nature and the animal and plant kingdoms, the senses and capacities of the human body, the accomplishments of extraordinary men and women, and humanity's poetry and prose. Brian Nelson's daily musings remind us of both the responsibility and the humanity we share on this earth and within the embrace of the cosmos.

The Nutmeg's Curse Amitav Ghosh, 2021-10-14 The author of *The Great Derangement* finds the origins of our climate crisis in Western colonialism's violent exploitation of human life and the environment. A powerful work of history, essay, testimony, and polemic, Amitav Ghosh's new book traces our contemporary planetary crisis back to the discovery of the New World and the sea route to the Indian Ocean. *The Nutmeg's Curse* argues that the dynamics of climate change today are rooted in a centuries-old geopolitical order constructed by Western colonialism. At the center of Ghosh's narrative is the now ubiquitous spice, nutmeg. The history of the nutmeg is one of conquest and exploitation of both human life and the natural environment. In Ghosh's hands, the story of the nutmeg becomes a parable for our environmental crisis, revealing the ways human history has always been entangled with earthly materials such as spices, tea, sugarcane, opium, and fossil fuels. Our crisis, he shows, is ultimately the result of a mechanistic view of the earth where nature exists only as a resource for humans to use for our own ends rather than a force of its own, full of agency and meaning. Writing against the backdrop of the global pandemic and the Black Lives Matter protests, Ghosh frames these historical stories in a way that connects our shared colonial histories with the deep inequality we see around us today. By interweaving discussions on everything from the global history of the oil trade to the migrant crisis and the animist spirituality of Indigenous communities around the world, *The Nutmeg's Curse* offers a sharp critique of Western society and speaks to the profoundly remarkable ways in which human history is shaped by non
