The Piano A Pictorial Account Of Its Ancestry And Development:

The Piano Helen R. Hollis, 1975 **The Piano** Helen Rice Hollis, 1973 Piano Hollis, 1989-11-01 **Makers of the Piano: 1820-1860** Martha Novak Clinkscale, 1993 This book continues the overview of early pianos begun in Clinkscale's *Makers of the Piano 1700-1820* OUP 1993. Although a few of the biographies overlap, the majority of the makers are completely new. Approximately 2,400 makers and manufacturers and about 2,200 pianos are listed. Of this total, about 645 are English, the majority of whom were active in London; more than 200 of the London makers have not been discussed in previous publications. *The First Fleet Piano: Volume One* Geoffrey Lancaster, 2015-11-03 During the late eighteenth century, a musical-cultural phenomenon swept the globe. The English square piano, invented in the early 1760s by an entrepreneurial German guitar maker in London, not only became an indispensable part of social life but also inspired the creation of an expressive and scintillating repertoire. Square pianos reinforced music as life's counterpoint and were played by royalty, by musicians of the highest calibre, and by aspiring amateurs alike. On Sunday 13 May 1787, a square piano departed from Portsmouth on board the *Sirius*, the flagship of the First Fleet bound for Botany Bay. Who made the First Fleet piano and when was it made? Who owned it? Who played it and who listened? What music did the instrument sound out and within what contexts was its voice heard? What became of the First Fleet piano after its arrival on antipodean soil and who played a part in the instrument's subsequent history? Two extant instruments contend for the title First Fleet piano, which of these made the epic journey to Botany Bay in 1787-88? *The First Fleet Piano: A Musician's View* answers these questions and provides tantalising glimpses of social and cultural life both in Georgian England and in the early colony at Sydney Cove. The First Fleet piano is placed within the musical and social contexts for which it was created, and narratives of the individuals whose lives have been touched by the instrument are woven together into an account of the First Fleet piano's conjunction with the forces of history. *View The First Fleet Piano Volume Two Appendices*. Note: Volume 1 and 2 are sold as a set for \$180, for both and cannot be purchased separately. *The New Grove Piano* Edwin M. Ripin, Phillip R. Belt, 1988 The New Grove Musical Instruments Series, a companion to the much acclaimed New Grove Composer Biography Series, presents in book form many of the lengthy and informative articles published in *The New Grove Dictionary of Musical Instruments*. **The Sight of Sound** Richard Leppert, 1993-12-01 Richard Leppert boldly examines the social meanings of music as these have been shaped not only by hearing but also by seeing music in performance. His purview is the northern European bourgeoisie, principally in England and the Low Countries, from 1600 to 1900. And his particular interest is the relation of music to the human body. He argues that musical practices, invariably linked to the body, are inseparable from the prevailing discourses of power, knowledge, identity, desire, and sexuality. With the support of 100 illustrations, Leppert addresses music and the production of racism, the hoarding of musical sound in a culture of scarcity, musical consumption, and the policing of gender, the domestic piano, and misogyny, music and male anxiety, and the social silencing of music. His unexpected yoking of

musicology and art history in particular his original insights into the relationships between music visual representation and the history of the body make exciting reading for scholars students and all those interested in society and the arts *Time, Space, and the Market* Stephen Brown, John F. Sherry Jr, 2014-12-18 A study of retrosapes commercial environments that evoke past times and places a ubiquitous manifestation of modern marketing It covers an array of retailing milieux in a number of different countries at a variety of spatial scales and from various evaluative perspectives both pro and con
