The Pill An Alarming Report:

The Pill Morton Mintz, 1970 *Hearings, Reports and Prints of the Senate Select Committee on Small Business* United States. Congress. Senate. Select Committee on Small Business, 1969 On the Pill Elizabeth Siegel Watkins, 2001-09-14 In 1968 a popular writer ranked the pill's importance with the discovery of fire and the developments of tool making hunting agriculture urbanism scientific medicine and nuclear energy Twenty five years later the leading British weekly the Economist listed the pill as one of the seven wonders of the modern world The image of the oral contraceptive as revolutionary persists in popular culture yet the nature of the changes it supposedly brought about has not been fully investigated After more than thirty five years on the market the role of the pill is due for a thorough examination from the Introduction In this fresh look at the pill's cultural and medical history Elizabeth Siegel Watkins re-examines the scientific and ideological forces that led to its development the part women played in debates over its application and the role of the media medical profession and pharmaceutical industry in deciding issues of its safety and meaning Her study helps us not only to understand the contraceptive revolution as such but also to appreciate the misinterpretations that surround it **The Morning After**

Heather Munro Prescott, 2011-09-15 Since 2006 when the morning after pill Plan B was first sold over the counter sales of emergency contraceptives have soared becoming an 80 million industry in the United States and throughout the Western world But emergency contraception is nothing new It has a long and often contentious history as the subject of clashes not only between medical researchers and religious groups but also between different factions of feminist health advocates The Morning After tells the story of emergency contraception in America from the 1960s to the present day and more importantly it tells the story of the women who have used it Side-stepping simplistic readings of these women as either radical feminist trailblazers or guinea pigs for the pharmaceutical industry medical historian Heather Munro Prescott offers a portrait of how ordinary women participated in the development and popularization of emergency contraception bringing a groundbreaking technology into the mainstream with the potential to alter radically reproductive health practices Narcocapitalism

Laurent de Sutter, 2018-03-16 What do the invention of anaesthetics in the middle of the nineteenth century the Nazis use of cocaine and the development of Prozac have in common The answer is that they're all products of the same logic that defines our contemporary era the age of anaesthesia Laurent de Sutter shows how large aspects of our lives are now characterised by the management of our emotions through drugs ranging from the everyday use of sleeping pills to hard narcotics Chemistry has become so much a part of us that we can't even see how much it has changed us In this era being a subject doesn't simply mean being subjected to powers that decide our lives it means that our very emotions have been outsourced to chemical stimulation Yet we don't understand why the drugs that we take are unable to free us from fatigue and depression and from the absence of desire that now characterizes our psychopolitical condition We have forgotten what it means to be excited because our only excitement has become drug induced We have to abandon the narcotic stimulation that we've come

to rely on and find a way back to the collective excitement that is narcocapitalism's greatest fear A History of Medicine Lois N. Magner, Oliver J Kim, 2017-12-14 Designed for survey courses in the field A History of Medicine presents a wide ranging overview for those seeking a solid grounding in the medical history of Western and non Western cultures Invaluable to instructors promoting the history of medicine in pre professional training and stressing major themes in the history of medicine this third edition continues to stimulate further exploration of the events methodologies and theories that have shaped medical practices in decades past and continue to do so today *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), 1970 First multi year cumulation covers six years 1965 70 Human Ecology Robert L. Jackson, 2002 An alternative life style that integrates human sexuality with natural family planning and breast feeding Dr Jackson proposes a natural way in harmony with Humanae Vitae and backs it up with scientific evidence *Medicating Modern America* Andrea Tone, Elizabeth Siegel Watkins, 2007-01-08 With Americans paying more than 200 billion each year for prescription pills the pharmaceutical business is the most profitable in the nation The popularity of prescription drugs in recent decades has remade the doctor patient relationship instituting prescription writing and pill taking as an integral part of medical practice and everyday life Medicating Modern America examines the meanings behind this pharmaceutical revolution through the interconnected histories of eight of the most influential and important drugs antibiotics mood stabilizers hormone replacement therapy oral contraceptives tranquilizers stimulants statins and Viagra All of these drugs have been popular profitable influential and controversial and the authors take a historical approach to studying their development prescription and consumption This perspective locates the histories of prescription medicines in specific cultural contexts while revealing the extent to which contemporary debates about pharmaceutical drugs echo concerns voiced by Americans in the past Exploring the rich and multi faceted history of pharmaceutical drugs in the United States Medicating Modern America unveils the untold stories behind America's pharmaceutical obsession Contributors include Robert Bud Jennifer R Fishman Jeremy A Greene David Healy Suzanne White Junod Ilima Singh Andrea Tone and Elizabeth Siegel Watkins **Oral Contraceptives: Psychological and Physiological Effects** David P. Rose, 1973
