Slow Food Valeria Siniscalchi, 2023-06-29 Written by one of the leading experts on food activism this is the only independent full length study of the Slow Food movement Slow Food is a grassroots organisation that embraces a slow way of life linking the love of food with community and environmental support Based on three years of ethnographic fieldwork inside Slow Food s international headquarters in Italy Valeria Siniscalchi reveals what really goes on behind the scenes of this enigmatic organization Observing daily meetings decision making processes and major events she explores the contradictions complexities and ambiguities of the movement as well as the passionate commitment of its employees

members and leaders Through talking to insiders and people who have broken with Slow Food Siniscalchi makes a major contribution to our understanding of one of the most high profile and controversial food movements in the world and to our knowledge of activist organizations more broadly This is an essential read for students and scholars in food studies anthropology geography and sociology and anyone interested in Slow Food *Anthropologica*, 2004 **Al Dente** Fabio Parasecoli, 2015-06-12 Spaghetti with meatballs fettuccine alfredo margherita pizzas ricotta and parmesan cheeses we have Italy to thank for some of our favorite comfort foods Home to a dazzling array of wines cheese breads vegetables and salamis Italy has become a mecca for foodies who flock to its pizzerias gelaterias and family style and Michelin starred restaurants Taking readers across the country's regions and beyond in the first book in Reaktion's new Foods and Nations series Al Dente explores our obsession with Italian food and how the country's cuisine became what it is today Fabio Parasecoli discovers that for centuries southern Mediterranean countries such as Italy fought against food scarcity wars invasions and an unfavorable agricultural environment Lacking in meat and dairy Italy developed foodways that depended on grains legumes and vegetables until a stronger economy in the late 1950s allowed the majority of Italians to afford a more diverse diet Parasecoli elucidates how the last half century has seen new packaging conservation techniques industrial mass production and more sophisticated systems of transportation and distribution bringing about profound changes in how the country's population thought about food He also reveals that much of Italy's culinary reputation hinged on the world's discovery of it as a healthy eating model which has led to the prevalence of high end Italian restaurants in major cities around the globe Including historical recipes for delicious Italian dishes to enjoy alongside a glass of crisp Chianti Al Dente is a fascinating survey of this country's cuisine that sheds new light on why we should always leave the gun and take the cannoli Cultural Studies and Anti-Consumerism Sam Binkley, Jo Littler, 2014-02-25 Anti consumerism has become a conspicuous part of contemporary activism and popular culture from culture jams and actions against Esso and Starbucks through the downshifting and voluntary simplicity movements the rise of ethical consumption and organic and the high profile of films and books like *Supersize Me* and *No Logo* A rising awareness of labor conditions in overseas plants the environmental impact of intensified consumer lifestyles and the effects of neo liberal privatization have all stimulated such popular cultural opposition However the subject of anti consumerism has received relatively little theoretical attention particularly from cultural studies which is surprising given the discipline's historical investments in extending radical politics and exploring the complexities of consumer desire This book considers how the expanding resources of contemporary cultural theory might be drawn upon to understand anti consumerist identifications and practices how railing against the social and cultural effects of consumerism has a complex past as well as present and it pays attention to the interplays between the different movements of anti consumerism and the particular modes of consumer culture in which they exist In addition as well as using cultural studies to analyse anti consumerism it also asks how such anti consumerist practices and

discourse challenges some of the presumptions and positions currently held in cultural studies This book was previously published as a special issue of Cultural Studies *Eating in Eden* Etta M. Madden, Martha L. Finch, 2006-01-01 A study of community visions of food and the relationship to other communal ideals including ethnicity religious affiliation and gender roles **Slow Media** Jennifer Rauch, 2018-09-11 Slow Media examines innovative theories and practices that connect mediated life with social and environmental sustainability including mindful use of media green media consumption and other new and compelling perspectives on media s socio cultural impact Jennifer Rauch reveals the surprising connections between human well being the natural world and everyday media choices **Profiles from the Kitchen** Charles A. Baker-Clark, 2006-07-01 A well researched collection of portraits of famous figures from the culinary world s past and present Library Journal Despite their diverse personalities backgrounds and interests the subjects of this book are a testament to the fact that both cooking and eating are endeavors well worth learning and sustaining Profiles from the Kitchen includes well known food writers such as M F K Fisher Eugene Walter Elizabeth David and John T Edge famous cooks such as Julia Child and James Beard and contemporary chefs such as Rick Bayless and Susan Spicer Each individual has offered different views of food and cooking and has encouraged us to appreciate good cooking while considering other facets of our food including how food relates to issues of social justice spirituality and sustainability
