The Policy Dilemma Federal Crime Policy And The Law Enforcement Assistance Administration:

The Policy Dilemma Malcolm Feeley, Austin Sarat, 1980 *The Handbook of Crime & Punishment* Michael H. Tonry, 2000
Consisting of 28 articles this comprehensive reference work on the study of crime examines its causes effects trends and institutions current philosophies of punishment and ways of controlling crime **The Policy Dilemma** Malcolm Feeley, Austin Sarat, 1980 Criminal Justice 2000: Policies, processes, and decisions of the criminal justice system ,2000
The 20th-Century American City Jon C. Teaford, 2016-09-11 An updated edition of the essential text from a respected urban historian Annals of Iowa Throughout the twentieth century the city was deemed a problematic space one that Americans urgently needed to improve Although cities from New York to Los Angeles served as grand monuments to wealth and enterprise they also reflected the social and economic fragmentation of the nation Race ethnicity and class splintered the metropolis both literally and figuratively thwarting efforts to create a harmonious whole The urban landscape revealed what was right and wrong with both the country and its citizens way of life In this thoroughly revised edition of his highly acclaimed book Jon C Teaford updates the story of urban America by expanding his discussion to cover the end of the twentieth century and the first years of the next millennium A new chapter on urban revival initiatives at the close of the century focuses on the fight over suburban sprawl as well as the mixed success of reimagining historic urban cores as hip new residential and cultural hubs The book also explores the effects of the late century immigration boom from Latin America and Asia which has complicated the metropolitan ethnic portrait Drawing on wide ranging primary and secondary sources Teaford describes the complex social political economic and physical development of US urban areas over the course of the long twentieth century Touching on aging central cities technoburbs and the ongoing conflict between inner city poverty and urban boosterism The Twentieth Century American City offers a broad accessible overview of America s persistent struggle for a better city Crime, Law and Society Malcolm M. Feeley, 2017-07-05 Malcolm Feeley s work is well known to scholars around the world and has influenced two generations of criminologists and legal scholars He has written extensively on crime and the legal process and has published numerous articles in law history social science and philosophy journals two of his books *The Process is the Punishment* and *Court Reform on Trials* have won awards This volume brings together many of his better known articles and essays as well as some of his lesser known but nevertheless important contributions all of which share the common theme of the value of the rule of law albeit a more sophisticated concept than is commonly embraced The selections also reveal the full range of his interests and the way in which his research interests have developed **The Culture of Control** David Garland, 2024-05-31 The past 30 years have seen vast changes in our attitudes toward crime More and more of us live in gated communities prison populations have skyrocketed and issues such as racial profiling community policing and zero tolerance policies dominate the headlines How is it that our response to crime and our sense of criminal justice has come to be so dramatically reconfigured David Garland charts the changes in crime and

criminal justice in America and Britain over the past twenty five years showing how they have been shaped by two underlying social forces the distinctive social organization of late modernity and the neoconservative politics that came to dominate the United States and the United Kingdom in the 1980s Garland explains how the new policies of crime and punishment welfare and security and the changing class race and gender relations that underpin them are linked to the fundamental problems of governing contemporary societies as states corporations and private citizens grapple with a volatile economy and a culture that combines expanded personal freedom with relaxed social controls It is the risky unfixed character of modern life that underlies our accelerating concern with control and crime control in particular It is not just crime that has changed society has changed as well and this transformation has reshaped criminological thought public policy and the cultural meaning of crime and criminals David Garland's *The Culture of Control* offers a brilliant guide to this process and its still reverberating consequences

Break Every Yoke Joshua Dubler, Vincent W. Lloyd, 2020 Changes in the American religious landscape enabled the rise of mass incarceration Religious ideas and practices also offer a key for ending mass incarceration These are the bold claims advanced by *Break Every Yoke* the joint work of two activist scholars of American religion Once in an era not too long past Americans both incarcerated and free spoke a language of social liberation animated by religion In the era of mass incarceration we have largely forgotten how to dream and organize this way To end mass incarceration we must reclaim this lost tradition Properly conceived the movement we need must demand not prison reform but prison abolition *Break Every Yoke* weaves religion into the stories about race politics and economics that conventionally account for America's grotesque prison expansion of the last half century and in so doing it sheds new light on one of our era's biggest human catastrophes By foregrounding the role of religion in the way political elites religious institutions and incarcerated activists talk about incarceration *Break Every Yoke* is an effort to stretch the American moral imagination and contribute resources toward envisioning alternative ways of doing justice By looking back to nineteenth century abolitionism and by turning to today's grassroots activists it argues for reclaiming the abolition spirit

Studies in Law, Politics and Society Austin Sarat, 2010-12-13 Contains articles that consider the ways in which history has shaped law and how we make sense of past events This volume also includes articles that explore pressing legal issues such as the prison boom First Amendment controversies and the work of cause lawyers It illustrates the vibrancy of interdisciplinary legal scholarship throughout

Crime & Politics Ted Gest, 2003-08-07 Why has America experienced an explosion in crime rates since 1960 Why has the crime rate dropped in recent years Though politicians are always ready both to take the credit for crime reduction and to exploit grisly headlines for short term political gain these questions remain among the most important and most difficult to answer in America today In *Crime Politics* award winning journalist Ted Gest gives readers the inside story of how crime policy is formulated inside the Washington beltway and state capitols why we've had cycle after cycle of ineffective federal legislation and where promising reforms might lead us in the future Gest examines how politicians first made crime a

national rather than a local issue beginning with Lyndon Johnson's crime commission and the landmark anti crime law of 1968 and continuing right up to such present day measures as three strikes laws mandatory sentencing and community policing Gest exposes a lack of consistent leadership backroom partisan politics and the rush to embrace simplistic solutions as the main causes for why Federal and state crime programs have failed to make our streets safe But he also explores how the media aid and abet this trend by featuring lurid crimes that simultaneously frighten the public and encourage candidates to offer another round of quick fix solutions Drawing on extensive research and including interviews with Edwin Meese Janet Reno Joseph Biden Ted Kennedy and William Webster Crime Politics uncovers the real reasons why America continues to struggle with the crime problem and shows how we do a better job in the future
