Public Spirit in the Thrift Tragedy Mark Carl Rom, 2010-11-23 Winner of the Harold Lasswell Award of the American Political Science Association The FSFIC failed spectacularly during the 1980s costing taxpayers an estimated 200 billion In this award winning analysis Rom examines the political causes of this thrift tragedy He directly confronts and rejects the dominant scholarly public choice view that public officials were motivated mainly by self interest Instead Rom argues that politicians and bureaucrats generally acted in the public spirit by attempting to obtain the common interest as they saw it Using new evidence and innovative methods Rom demonstrates that FSLIC's failure unfolded because of commitments that officials had made in the past and their uncertainties about how to fulfill these obligations in the future
