## **The Polish Campaign 1939:**

**The Polish Campaign, 1939** Steve Zaloga, W. Victor Madej, 1990-12-31 The Polish Campaign of 1939 was the first violent demonstration of the effectiveness of the Blitzkrieg tactics of the German Army This book takes little known Polish documentary sources to provide a look at the battles from the perspective of the Polish Army **Case White** Robert Forczyk, 2019-10-31 This fascinating title from renowned World War II historian Robert Forczyk tells the story of Case White The German invasion of Poland on 1 September 1939 designated as Fall Weiss Case White was the event that sparked the outbreak of World War II in Europe The campaign has widely been described as a textbook example of Blitzkrieg but it was actually a fairly conventional campaign as the Wehrmacht was still learning how to use its new Panzers and dive bombers The Polish military is often misrepresented as hopelessly obsolete and outclassed by the Wehrmacht when in fact it was well equipped with modern weapons and armour Indeed the Polish possessed more tanks than the British and had cracked the German Enigma machine cipher Though the combined assault from Germany and the Soviet Union defeated Poland it could not crush the Polish fighting spirit and thousands of soldiers and airmen escaped to fight on other fronts The result of Case White was a brutal occupation as Polish Slavs found themselves marginalized and later eliminated paving the way for Hitler's vision of Lebensraum living space and his later betrayal and invasion of the Soviet Union in 1941 Using a wide array of sources Robert Forczyk challenges the myths of Case White to tell the full story of the invasion that sparked history's greatest conflict **First to Fight** Roger Moorhouse, 2019-09-05 A new and definitive account of the German invasion of Poland that initiated WWII in 1939 written by a historian at the height of his abilities Deeply researched very well written This book will be the standard work on the subject for many years to come Andrew Roberts author of Churchill Walking with Destiny The Polish campaign is the forgotten story of the Second World War The war began on 1 September 1939 when German tanks trucks and infantry crossed the Polish border and the Luftwaffe began bombing Poland's towns and cities The Polish army fought bravely but could not withstand the concentrated attack When the Red Army invaded from the east the country's fate was sealed This is the first history of the Polish war for almost half a century Drawing on letters memoirs and diaries from all sides Roger Moorhouse's dramatic account of the military events is entwined with a human story of courage and suffering and a dark tale of diplomatic betrayal Important Moorhouse has a wonderful knack for reminding us about the parts of the Second World War that we are in danger of forgetting Dan Snow Shortlisted for the Duke of Wellington Medal for Military History 2020 *Poland 1939* Steven J. Zaloga, 2022-12-10 A detailed study of the first major conflict of the Second World War comparing the German Blitzkrieg offensive to the small but formidable Polish defense The German invasion of Poland on 1 September 1939 began World War II in Europe pitting the newly modernized army of Europe's great industrial power against the much smaller Polish army and introducing the world to a new style of warfare Blitzkrieg Panzer divisions spearheaded the German assault with Stuka dive bombers prowling ahead spreading terror and mayhem This book

demonstrates how the Polish army was not as backward as it is often portrayed and fielded a tank force larger than that of the contemporary US Army Its stubborn defence did give the Germans some surprises and German casualties were relatively heavy for such a short campaign

**Case White** William Russ,2018-01-15 In September 1939 Nazi Germany initiated the second world war by invading Poland William Russ has compiled a highly detailed study of the German invasion of Poland in September 1939 examining the actions of every group on a daily basis This book explores the campaign down to the regimental level from the German perspective listing every action as appropriate The appendices provide a complete order of battle for the Germans and the Polish forces as well as their positions There are sixty nine maps of the campaign as well as information on armament and equipment
