The Political Economy of Participatory Economics Michael Albert, Robin Hahnel, 1991-04-09 With the near bankruptcy of centrally planned economies now apparent and with capitalism seemingly incapable of generating egalitarian outcomes in the first world and economic development in the third world alternative approaches to managing economic affairs are an urgent necessity Until now however descriptions of alternatives have been unconvincing Here Michael Albert and Robin Hahnel support the libertarian socialist tradition by presenting a rigorous well defined model of how producers and consumers could democratically plan their interconnected activities After explaining why hierarchical production inequality consumption central planning and market allocations are incompatible with classlessness the authors present an alternative model of democratic workers and consumers councils operating in a decentralized social planning procedure They show how egalitarian consumption and job complexes in which all engage in conceptual as well as executionary labor can be efficient They demonstrate the ability of their planning procedure to yield equitable and efficient outcomes even in the context of externalities and public goods and its power to stimulate rather than subvert participatory impulses Also included is a discussion of information management and how simulation experiments can substantiate the feasibility of their model

Economic Justice and Democracy Robin Hahnel, 2013-05-13 In Economic Justice and Democracy Robin Hahnel puts aside most economic theories from the left and the right from central planning to unbridled corporate enterprise as undemocratic and instead outlines a plan for restructuring the relationship between markets and governments according to effects rather than contributions This idea is simple provocative and turns most arguments on their heads those most affected by a decision get to make it It is uncomplicated unquestionably American in its freedom reinforcement and

essentially what anti globalization protestors are asking for Companies would be more accountable to their consumers polluters to nearby homeowners would be factory closers to factory town inhabitants Sometimes what s good for General Motors is bad for America which is why we have regulations in the first place Though participatory economics as Robert Heilbronner termed has been discussed more outside America than in it Hahnel has followed discussions elsewhere and also presents many of the arguments for and against this system and ways to put it in place **Moving Forward** Michael Albert,2000 A What Is to Be Done for activists in the aftermath of the Seattle WTO demos **Economic Justice and Democracy** Robin Hahnel,2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company
