Moran, 2009-01-01 The first novel ever written about terrorism Dostoevsky's *The Demons* is also the most instructive for in it he addresses better than any writer before or since the two persistent riddles of terrorism why are terrorists so new to our civilization and how is it that they can kill others so easily in the name of a political idea As a first generation observer of terrorism Dostoevsky came to the conclusion that this new political movement was the product of modern culture politics and psychology He felt that modernity created a unique shame and humiliation that fueled terrorism The demons that he brings to life in this novel are not fire breathing monsters but gracious subtle cosmopolitan rational and scientific They are also murderers rapists arsonists and terrorists For Dostoevsky these demons were ultimately the product of cosmopolitan Paris for it was there that individuals first deified reason and thus abandoned the ancient sources of morality the ancient Gods By replacing the ancient with the modern gods of atheism science and liberalism modern societies have abandoned any sort of moral constraint that helped to keep violence and tyranny in check This created the new modern nihilistic world of terrorism If modern shame and humiliation are truly at the heart of modern terrorism twenty first century readers can gain a clearer insight into terrorist motivations through understanding Dostoevsky's work *The Solution of the Fist* Dostoevsky and the Roots of Modern Terrorism aims to aid in this process through an in depth analysis of his work and a careful explanation of the context in which nineteenth century readers would understand it From Antagonism to Partnership Togzhan Kassenova, 2007-09-03 This book is a study of cooperative

security efforts between the United States and Russia since the collapse of the Soviet Union It undertakes an analysis of the Cooperative Threat Reduction CTR Program and several other programs established by different U S Departments The CTR process demonstrates both the achievements and limitations of the evolving new framework of interaction between the U S and Russia This investigation is the first attempt to use the CTR process as a case study for U S Russian strategic relations in the post Cold War international security system By answering the questions of why this process is prone to some persistent problems of implementation and why it was possible in the first place it yields significant conclusions regarding the nature of U S Russian relations and the achievements as well as limitations in the bilateral relationship since the end of the Cold War From Antagonism to Partnership contributes to the existing literature on cooperative threat reduction as a study linking CTR to the wider context of the opportunities challenges and constraints determining the nature of post Cold War relations between the U S and Russia

The Arab Spring, Civil Society, and Innovative Activism Cenap Çakmak, 2016-12-09 This book investigates the role of society groups in the making of the Arab Spring and under which conditions they attained their goals Democracy and recognition of human rights and fundamental freedoms seem to be the main drives of the people organized in

form of civil groups or grassroots movements in the Arab Spring countries but it is essential to identify when they find it suitable to take such extreme action as taking the streets in an attempt to take down the repressive regimes. It is also important to investigate what methods they relied on in their action and how they challenged the state and the government. A review of the cases in this volume shows that civil society has certain limitations in its action. Analysis of the cases also challenges a commonly held assumption that the Arab world does not have strong and rich civil society tradition. However, for a lasting success and consolidation of democracy, something more than civil society action is obviously needed. A strong organized opposition and a democratic culture seems to be indispensable elements for the evolution of a democratic order and tradition.

Experiencing Citizenship Richard M. Battistoni, William E. Hudson, 2023-07-03 This practical guide is intended for faculty and service learning directors combining the how-to information and rigorous intellectual framework that teachers seek. What distinguishes this volume is that the contributors are writing for their peers. They discuss how service learning can be implemented within political science and what this discipline contributes to the pedagogy of service learning.
