The Politics Of Critique:

The Politics of Critique Dick Howard, 1988 *F.O. Matthiessen and the Politics of Criticism* William E. Cain, 1988 F O Matthiessen remains one of America's leading twentieth century critics in part because the problems he and his contemporaries struggled with remain ours today William E Cain studies Matthiessen's career with careful attention to biographical institutional literary and political contexts He considers Matthiessen's many reviews and essays on literature and deals sympathetically but critically with Matthiessen's attitudes toward the Cold War as revealed in his memoir *From the Heart of Europe* Cain draws connections between Matthiessen's criticism and the influence of significant political movements like the Popular Front of the 1930s the Progressive Party and Henry Wallace's campaign for the presidency in 1948 Analyzing specific texts by Thoreau James Dreiser and Melville he confronts the difficult and highly contested relationships between literary criticism and politics scholarship and the public sphere pedagogy and social activism He suggests that critics need to acknowledge the primacy of their political commitments and should proceed to teach and write accordingly This argument certain to prove a controversial one will spark extensive debate and discussion about the theory and practice of intellectual work All students and scholars of English and American literature American studies black studies and American history will welcome this original and stimulating study the first to treat Matthiessen in fully detailed social historical and political contexts Philosophical and Political Consequences of the Critique of Political Economy Patrick Murray, Jeanne Schuler, 2023-08-29 This book extends the approach that Murray and Schuler develop in their companion volume *False Moves in Philosophy and Social Theory Losing Public Purpose* The chapters form a connected inquiry into consequences of capital a far reaching social form through a critique of political economy and the mindset it shares with much modern philosophy and social theory The authors call this bifurcating mentality factoring philosophy Factoring philosophy mistakes the distinguishable for the separable It splits the subjective and objective form and content and it takes the object of social theory to be an impossible economy in general stripped of constitutive social forms The critique of factoring philosophy structures the collection which makes a wide ranging contribution to the research field of the critique of political economy as critical social theory Ultimately this book solidifies Murray and Schuler's impact on the study of political economy political philosophy modern philosophy Hegel Marx and critical theory **Foucault on the Politics of Parrhesia** T. Dyrberg, 2014-03-10 Foucault saw the notion of parrhesia truth telling as the most important factor for how governments could and should communicate with their people and vice versa This important collection compiles and analyses Foucault's views on parrhesia to shed new light on his ideas on the importance of truth telling in democracies The Politics of Moralizing Jane Bennett, Michael J. Shapiro, 2013-09-13 The Politics of Moralizing issues a stern warning about the risks of speaking writing and thinking in a manner too confident about one's own judgments and asks Can a clear line be drawn between dogmatism and simple certainty and indignation Bennett and Shapiro enter the debate by questioning what has

become a popular even pervasive cultural narrative told by both the left and the right the story of the West's moral decline degeneration or confusion Contributors explore the dynamics and dilemmas of moralizing by advocates of patriotism environmental protection and women's rights while arguing that the current discourse gives free license to self aggrandizement cruelty vengeance and punitiveness and a generalized resistance to or abjection of diversity

The Politics of Criticism as a Criticism of Politics Rick Alan Olguin, 1986 *The Ends of Critique* Kathrin Thiele, Birgit M. Kaiser, Timothy O'Leary, 2022-03-01 *The Ends of Critique* re-examines the stakes of critique in the 21st century In view of increasingly complex socio-political realities and shifts in a fully globalized world the roles and manners of critique also change The volume offers an unprecedented re-examination of critique under those conditions of global entanglement and asymmetrical relations from a diversity of scholarly perspectives within the humanities All contributions move the notion of critique into more diverse traditions than the Eurocentric Kantian tradition and emphasize the need to attend to a plurality of critical perspectives The volume's reflections move critique toward a situated perspectival and entangled critical stance with interventions from decolonial and systemic deconstructive and post-humanist perspectives In that way the volume develops a decidedly different approach to critique than recent considerations of critique as post-critique Felski or those indebted to Frankfurt School thought and liberal theories of democracy It is the first full-length research publication of the interdisciplinary research network Terra Critica

The Politics of Transindividuality Jason Read, 2015-10-05 *The Politics of Transindividuality* re-examines social relations and subjectivity through the concept of transindividuality Transindividuality is understood as the mutual constitution of individuality and collectivity and as such it intersects with politics and economics philosophical speculation and political practice While the term transindividuality is drawn from the work of Gilbert Simondon this book views it broadly examining such canonical figures as Spinoza Hegel and Marx as well as contemporary debates involving Etienne Balibar Bernard Stiegler and Paolo Virno Through these intersecting aspects and interpretations of transindividuality the book proposes to examine anew the intersection of politics and economics through their mutual constitution of affects imagination and subjectivity

The Politics of Social Research Professor Martyn Hammersley, 1995-03-09 *Is social research political? Should it be political? What are the implications of the politicization of social research?* Recent years have seen a growing range of challenges to the idea that research should be governed by the principle of value neutrality Critical feminist antiracist and postmodernist analyses have argued that social research is intrinsically political In this stimulating and often controversial book Martyn Hammersley weighs the arguments offered in support of these positions He considers the fundamental issues that the debate raises about the nature of social research its political dimensions and its contemporary relevance At the same time he provides a robust defence of value neutrality as a constitutive principle of social research and makes a reassessment of the role of research in modern societies Praise for *The Politics of Social Research* For anyone interested in the nature of social research who has enough grasp of the issues to

access the text this book is a must British Journal of Educational Psychology All in all Hammersley has produced a text which provides us with much to think about As I have said certain chapters will no doubt attract considerable debate Almost all of the chapters could stand alone but the broad political theme used to bring chapters and topics together works well almost always Local Government Studies Not only is Hammersley a leading exponent of sociological research he is also a key writer and thinker on the problems of undertaking research This collection some of which has been published elsewhere and some not therefore is a welcome addition to the literature on social research interesting and well argued Disability and Society

The Politics of Aesthetics Marc Redfield, 2003 This book suggests that modern cultural and critical institutions have persistently associated questions of aesthetics and politics with literature theory technics and Romanticism Its first section examines aesthetic nationalism and the figure of the body focusing on writings by Benedict Anderson J G Fichte and Matthew Arnold and arguing that uneasy acts of aestheticization of media technology and abjection of the maternal body undergird the production of the national body as imagined community Subsequent chapters on Paul de Man Friedrich Schlegel and Percy Shelley explore the career of the gendered body in the aesthetic tradition and the relationship among aesthetics technics politics and figurative language The author accounts for the hysteria that has characterized media representations of theory explains why and how Romanticism has remained a locus of extravagant political hopes and anxieties and in a sequence of close readings uncovers the anaesthetic condition of possibility of the politics of aesthetics
