Superfortress Over Japan 24 Hours With A B 29:

B-29 Superfortress vs Japanese Nightfighter Mark Lardas, 2025-03-13 An illustrated study of the clashes between B 29s conducting night raids on Japan and the Japanese nightfighters protecting the Home Islands from 1944-45. The USAF's B 29 led strategic bombing offensive against Japan succeeded when XX Bomber Command switched from high level daytime precision bombing to low level night time area bombing. The latter tactic required Superfortresses to attack their target individually without a formation or escorting fighters for protection. Despite this, Japanese nightfighters proved unable to stop the B 29s. In this study, Mark Lardas examines the capabilities of the aircraft involved and reveals the conditions under which both sides fought. He evaluates the cutting edge technology of both sides and how it affected the outcome of the battle. Maps, tactical diagrams, photographs, and specially commissioned artwork bring the action to life as the individual US bombers and Japanese nightfighters fight a classic military duel. [B-29 Superfortress Units of the Korean War](#) Robert F Dorr, 2012-12-20

This book is the story of a majestic bomber of the propeller era flying perilous combat missions against a sleek nimble warplane of the jet age, the Soviet MiG 15. A very heavy bomber and a sky giant during World War 2, at that time the B 29 was the most advanced combat aircraft in the world. By the time North Korea attacked its southern neighbour in 1950, the B 29 had been reclassified a medium bomber. Many of its crew members had fought their war and settled down to raise families and begin careers, only to be recalled to fight another war on a distant Asian peninsula. Alongside rich illustrations, Robert F Dorr charts the combat experience of the B 29 Superfortress units and how the plane fared during the Korean War. [B-29 Superfortress Units of World War 2](#) Robert F Dorr, 2012-12-20. Featuring photography and colour profiles throughout a history of the bomber that shaped the Pacific War. The ultimate piston engined heavy bomber of World War 2, the first production B 29s were delivered to the 58th Very Heavy Bomb Wing in the autumn of 1943. By the spring of 1944, the Superfortress was bombing targets in the Pacific, and by war's end, the aircraft had played as great a part as any weapon in ending the conflict with the Japanese. Indeed, the final dropping of two atomic bombs from the B 29 convinced the Japanese to sue for peace. This book traces the wartime career of the B 29 as the aircraft went from strength to strength in the Pacific Theatre. **58th Bomb Wing**, 1999-06. This comprehensive history covers the 58th Bomb Wing from its activation in June of 1943 through World War II. With service biographies and special stories from the men who served, this is a wonderful addition to the library of anyone interested in World War II.

[Combat Aircraft of the United States Air Force](#) Michael Green, 2016-07-30. When the United States Army Signal Corps created the Aeronautical Division in August 1907, it had a mission to take charge of all matters pertaining to military ballooning, air machines, and all kindred matters. That small inconsequential portion of the US Army would grow progressively over the many decades to become a separate service named the US Air Force in 1947, following the Second World War. Overnight, it became the world's most powerful military establishment, able to deliver conventional and nuclear ordnance anywhere around the globe. Today's cutting edge example of

this power projection is the supersonic bat winged B 2 Spirit stealth bomber which can fly at an altitude of 50 000 feet and is built of carbon graphite composite materials The B 2 Spirit is a far cry from the early days of the service when it relied on fragile prop driven wood and fabric aerial platforms such as the Wright Type B which could barely reach an altitude of 100 feet In between have been such iconic Second World War aircraft as the P 51 Mustang and P 47 Thunderbolt fighters and bombers such as the B 25 Mitchell B 17 Flying Fortress and B 29 Superfortress which dropped the first Atomic Bomb in 1945 The Cold War demanded ever more powerful aircraft such as the B 58 Hustler and B 52 Stratofortress and fighters including the F 86 Sabre F 104 Starfighter and F 4 Phantom All these aircraft and more are vividly illustrated and described in detail in this superb Images of War publication

B-29 Superfortress ,2003-05-01 Contains stories of missions details of squadrons that flew the B 29 as well as then and now photos of veterans of the B 29 Many photos

The Ganson Street Tigers Go to War Fr T. Adcock and Cynthia Nassiff Adcock,2018-06-08 During the dark days of World War II forty one individuals from Ganson Street in the industrialized Western New York city of North Tonawanda left all that was dear to battle the domination of the Axis forces The Ganson Street Tigers bonded on the streets of an immigrant neighborhood during the Great Depression and their camaraderie was cemented forever on the ball diamonds and sandlots of their youth This is their story from the heart of Little Italy to the raging battlefields of Europe and the Pacific The contributions these men and women made toward ultimate victory will leave the reader in wonder of a generation that refused defeat Step back in time and relive an era that is quickly fading from the American psyche It was a time when the fate of the United States rested in the hands of its heroic youth Come experience the lives of the Ganson Street Tigers as they selflessly endure the harrowing exploits of war to help preserve the freedoms of this nation

B-29 Superfortress vs Ki-44 "Tojo" Donald Nijboer,2017-10-19 By the time the Americans began their aerial bombardment of Japan in 1944 both the JAAF and IJNAF were spent forces What the Japanese did have though was the Ki 44 Tojo Armed with two 40 mm cannon it was the most heavily armed and feared single seat fighter to see action against the new American bomber the B 29 Superfortress For the bomber crews they had what they believed was their ace in hole a fully armed B 29 carried four remotely operated gun turrets and a tail gunner's position making it the world's most advanced self defending bomber In every respect the Ki 44 pilots were fighting a desperate battle Many who made their mark did so using suicidal ramming attacks or taiatari Illustrated with full colour artwork this volume examines why the Ki 44 was unable to break up bomber formations conventionally during the Pacific War and how its ramming tactics while terrifying graphically revealed Japan's inability to stop the B 29

B-29 Superfortress: The Plane that Won the War Gene Gurney,2019-09-30 B 29 Superfortress The Plane that Won the War is the definitive account of the crucial role played by the B 29 bomber during World War II Author Gene Gurney takes the reader from the superplane's inception test flights and production to its combat deployments and its ultimate purpose of dropping the atomic bombs on Hiroshima and Nagasaki

Japanese Army Air Force Aces 1937-45 Henry Sakaida,2012-10-20 Little has been published in

English on the Japanese Army Air Force JAAF let alone its most successful fighter pilots no less than 150 of them achieved ace status during eight years of near constant war They are all listed in this volume From the arid plains of the Mongolian border region to the lush jungles of New Guinea the JAAF was more than a match for the many opponents it fought against for control of the skies Indeed even when the mighty Allied war machine proved almost overwhelming from early 1944 onwards the elite fighter pilots of the various sentais within the JAAF fought on with near fanatical loyalty in defence of the Home Islands
