Supervision Thomas J. Sergiovanni, Robert J. Starratt, 1983 *Supervision* Thomas J. Sergiovanni, Robert J. Starratt, 1979 *Supervision* Thomas J. Sergiovanni, Robert J. Starratt, 1988 This supervisory administrative and leadership text for courses at the graduate level reflects new thinking about teaching and school structures redefining the idea of supervision to focus on seeing schools as communities rather than as organizations In addition Supervision emphasizes the student teacher relationship rather than bureaucratic functions Using new opinions based on current trends in education the fifth edition takes the position of viewing the school as a community with teaching and learning as the most important aspects of this community In addition the school is looked upon as a moral rather than a technical enterprise whereby the moral authority of the supervisor and its close link with the moral authority of the teacher is emphasized The simplified chapters and the revised arrangement of material provide a more logical sequence and presentation of the subject

Emerging Patterns of Supervision Thomas J. Sergiovanni, 1971 *Understanding Curriculum* William F. Pinar, 1995 Perhaps not since Ralph Tyler's 1949 Basic Principles of Curriculum and Instruction has a book communicated the field as completely as Understanding Curriculum From historical discourses to breaking developments in feminist poststructuralist and racial theory including chapters on political theory phenomenology aesthetics theology international developments and a lengthy chapter on institutional concerns the American curriculum field is here It will be an indispensable textbook for undergraduate and graduate courses alike **Using Humor to Maximize Living** Mary Kay Morrison, 2012-03-29 Humor gets very little respect While references to the importance of having a sense of humor are liberally sprinkled throughout the popular media and it is usually mentioned as one of the qualities of effective employees it is rare to find purposeful humor practice Humor is without a doubt the one quality that most of us agree is needed in life However it is rare to find serious applications on the benefits of applying humor in everyday life and in our world of work When the federal government tried to incorporate humor into a staff development program of a federal agency there was an outcry It seems that humor was thought to be a waste of taxpayer money and the program was axed The purpose of Using Humor to Maximize Living is to affirm sustain and encourage people in the practice of humor not only as a personal tool to optimize a healthy life style but also to maximize the benefits of humor in everyday life Check out the research that includes a review on the use of humor to nurture creativity to increase the capacity for memory retention to support an optimal work environment and to build safe communities that reflect the relational trust necessary for maximizing living Author Mary Kay Morrison teaches a 3 hour grad course in Humor Studies through the Association for Applied and Therapeutic Humor AATH at the annual conference each year <http://www.aath.org/humor/academy> *Leadership in Education* Pamela Adams, Carmen Mombourquette, David

Townsend, 2019-12-20 Leadership in Education is an evocative forward looking text that is grounded in years of research gathered in hundreds of schools and across districts. The text calls teachers, supervisors, and school administrators to action in the classroom, demonstrating effective leadership skills that affirm mutual respect, build trust, stimulate reflection, strengthen partnerships, and use inquiry to direct action. Building multi-faceted and nuanced links between educational leadership, school improvement, teaching effectiveness, and student learning, this succinct and compelling guide offers highly effective strategies for provoking meaningful growth in the classroom. The authors guide the reader through the process of using generative dialogue in leadership roles from provocation to reflection, a shift in thinking, and implementation of highly effective leadership practices. The volume reinforces the ethical responsibility of educators to focus on practices that provide optimal learning environments for all students. Both an academic resource and an interactive manual, Leadership in Education features literature reviews, suggested readings, a glossary, thought provocations, and case studies with reflection questions to encourage deeper learning. Grounded in lived experiences and brimming with real stories of educators, this critical guidebook is ideal for graduate students in education and leadership programs.
