Support Services Alternative Service Delivery Choices 1997:

Alternative Service Delivery: Readiness Check Gerald T. Gabris, Heidi O. Koenig, Kurt Thurmaier, Craig S. Maher, Kimberly L. Nelson, Katherine A. Piker, Alicia Schatteman, Dawn S. Peters, Craig Rapp, 2014-04-15 Alternative Service Delivery Readiness Check synthesizes academic and practitioner knowledge about alternative service delivery ASD systems. This handbook offers information and insights that local governments can use to provide public services more effectively and efficiently. It serves as a primer about alternative service delivery intended to guide investigation of new approaches to service delivery. It derives from multiple conversations with local government practitioners in Illinois who were frustrated by a lack of guidance on how to think about alternative service delivery methods for public services and in what circumstances different alternatives were more or less successful. This handbook is written for both appointed managers and elected officials who are looking for innovative ways to consider service delivery and want to answer the basic question: Can we be doing this better? Why does your local government want to consider providing public services in new alternative ways? As the cases in this handbook demonstrate, jurisdictions that successfully develop and implement an alternative service delivery method are driven by a desire to improve service effectiveness. Local governments that move from tactical to strategic thinking about service delivery are the ones more likely to improve services using different forms of alternative service delivery. The kinds of issues and types of questions examined in this handbook range from how to best handle such demand-driven services as allocation of police and fire resources to how to share expensive equipment that your jurisdiction needs only some of the time. The stories, solutions, and evidence are intended to help local government officials understand the differences between delivery alternatives and the prerequisites for developing and implementing each option. Compilation of the Social Security Laws United States, 1993 **Local Government Innovation** Robin A. Johnson, Norman Walzer, 2000-09-30 Nationally recognized scholars and practitioners examine opportunities in which services traditionally provided by local governments are offered by the private sector through a contract or are transferred to a private business completely. Many large U.S. cities have contracted services for many years. With the movement to rightsize governments in recent years, there has been renewed interest by local governments in similar ventures. Privatization in its many forms is now seen as a viable alternative to traditional ways of providing public services and can bring substantial benefits to residents. With greater accountability being demanded and pressures on local officials to hold the line on or reduce taxes, efforts to find innovative service delivery methods will probably increase. Cities such as Atlanta, Indianapolis, and Charlotte are examples showing that contracts with private businesses can work to benefit all parties. Local officials must move ahead cautiously and not all attempts at privatization or contracting have succeeded. Some cities, after an evaluation

have decided to provide services with municipal employees The main issues underlying privatization decisions will be addressed conceptually so that practitioners and academics benefit from a review of the current thinking on the issues At the same time exemplary practices and case studies are included so that readers can understand how privatization and managed competition have been implemented in local governments Special attention is paid to administrative questions that may arise during the implementation process For example ways in which cities have worked with employees who fear displacement because of the privatization process are described The book breaks new ground by including references to recent innovations in public private partnerships and describing how privatization may evolve in the future *"Code of Massachusetts regulations, 1997"* ,1997 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020 *Structural Interventions for HIV Prevention* Richard A.
