

The background of the image is a traditional marbled paper pattern, often used for book covers. It features a complex, swirling design in shades of orange, brown, and purple, with some green and blue accents. The pattern consists of repeating, stylized floral or foliate motifs that create a sense of movement and depth. In the center of the image, there is a rectangular box with a thin, light-colored border. Inside this box, the title and author's name are printed in a serif font. The title is in a larger, bold font, and the author's name is in a smaller, italicized font. Between the title and the author's name, there is a decorative horizontal line with a central circular element and symmetrical arrow-like shapes on either side.

Sensation and Perception D. W. Hamlyn, 2022-09-01 First published in 1961 *Sensation and Perception* aims to cast light upon the nature of perception itself This the author believes can be achieved only through an understanding of the concepts of sensation and perception A survey of the principal attempts to arrive at such an understanding brings out the fact that perception has most often been assimilated to sensation or judgment The author believes that both of these views are wrong but that an attention to the history of thought can provide an explanation of the temptation to accept them A final chapter gives the author's own views on the nature of sensation and perception As such it would be of interest both to philosophers and to those psychologists who are concerned with the nature of perception **Personal Identity, the Self,**
