Medieval pilgrimage was above all an expression of religious faith but this was not its only aspect Men and women of all classes went on pilgrimage for a variety of reasons sometimes by choice sometimes involuntarily They made both long and short journeys to Rome Jerusalem and Santiago on the one hand to innumerable local shrines on the other The routes that they followed by land and water made up a complex web which covered the face of Europe and their travels required a range of support services including the protection of rulers who were themselves often pilgrims Pilgrimage left its mark not only on the landscape but also on the art and literature of Europe Diana Webb's engaging book offers the reader a fresh introduction to the history of European Christian pilgrimage in the twelve hundred years between the conversion of Emperor Constantine and the beginnings of the Protestant Reformation As well as exploring this multi faceted activity it considers both the geography of pilgrimage and its significant cultural legacy
