The Poisoning Of Michigan:

The Poisoning of Michigan Joyce Egginton, 2009 The highly toxic PBB poisoning of Michigan remains the most widespread chemical contamination known in U S history The Poisoning of Michigan is an investigative journalist s account of the contamination of Michigan s dairy cattle with the highly toxic chemical PBB polybrominated biphenyl in 1973 A near relation of PCB this now banned substance designed as a fire retardant was mistaken for a nutritional supplement at a chemical plant It ended up in cattle feed that was distributed to farms throughout the state By the time the error was discovered virtually all nine million residents of Michigan had been ingesting contaminated milk and meat for almost a year A new introduction by the author and an afterword by three distinguished environmental scientists explain how the legacy of Michigan s poisoning lives on and how equally toxic substitutes for PBB still invade our homes and lives This new edition of Egginton s environmental classic first published in 1980 and long out of print tells how the tragedy affected both the farm community and the wider populace and how federal and state authorities failed to respond We were mired in a swamp of ignorance one state official admitted *PBB*, Donald Bruce MacLean, 1978 The Invisible Farm Thomas Pawlick, 2001 The nature of rural life and food production is changing dramatically but remains overlooked by the major media The Invisible Farm provides the first substantial accounting of this problem addressing issues such as habitat destruction loss of biodiversity pollution and soil degradation Pawlick supplies readers with frightening examples of events taking place worldwide without public awareness As these environmental problems get worse farm reporters are disappearing from newspapers and television Rural news and environmental issues are increasingly neglected Pawlick argues that this lack of interest is partly due to less agricultural journalism training at universities As a result massive changes in farming distribution and production continue unabated while the consuming public is left uninformed A Burnham Publishers book

Civic Empowerment in an Age of Corporate Greed Edward C. Lorenz, 2012-04-01 A thought provoking investigation of an urgent issue facing American communities today Edward C Lorenz s book examines the intersection of corporate irresponsibility and civic engagement At the heart of this case study is a group of firms responsible for seven of the most contaminated Superfund sites in the United States the largest food contamination accident in U S history stunning stock and financial manipulations and a massive shift of jobs off shore In the face of these egregious environmental employee and investor abuses several communities impacted by these firms organized to confront and combat failures in corporate and bureaucratic leadership winning notable victories over major financiers lobbyists and indifferent or ineffective government agencies A critical analysis of public and private leadership business and economic ethics and civic life this book concludes with a stirring blueprint for other communities facing similarly overwhelming opposition **Mother Jones Magazine**, 1977-05 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues Michigan's Strychnine Saint Tobin T. Buhk, 2014-03-04

A historically accurate picture of the characters involved in the complicated frontier era poisoning investigation MLive com The spring of 1903 proved disastrous for the Murphy family On April 22 the infant Ruth Murphy died in her crib Within an hour her mother Gertrude experienced a violent spasm before she too died Ten days later John Murphy followed his wife and child to the grave after suffering from a crippling convulsion While neighbors whispered about a curse and physicians feared a contagious disease Kalkaska County sheriff John W Creighton and prosecuting attorney Ernest C Smith searched for answers As they probed deeper into the suspicious deaths they uncovered a wicked web of intrigue And at the center stood a widow in a black taffeta dress Includes photos **Tyrotaxon Poisoning in Michigan in 1890** Michigan. State Board of Health, STATE BOARD OF MICHIGAN--HEALTH, 1894 *The Rural Midwest Since World War II* J. L. Anderson, 2014-02-01 J L Anderson seeks to change the belief that the Midwest lacks the kind of geographic coherence historical issues and cultural touchstones that have informed regional identity in the American South West and Northeast The goal of this illuminating volume is to demonstrate uniqueness in a region that has always been amorphous and is increasingly so Midwesterners are a dynamic people who shaped the physical and social landscapes of the great midsection of the nation and they are presented as such in this volume that offers a general yet informed overview of the region after World War II The contributors most of whom are Midwesterners by birth or residence seek to better understand a particular piece of rural America a place too often caricatured misunderstood and ignored However the rural landscape has experienced agricultural diversity and major shifts in land use Farmers in the region have successfully raised new commodities from dairy and cherries to mint and sugar beets The region has also been a place where community leaders fought to improve their economic and social well being women redefined their roles on the farm and minorities asserted their own version of the American Dream The rural Midwest is a regional melting pot and contributors to this volume do not set out to sing its praises or by contrast assume the position of Midwestern modesty and self deprecation The essays herein rewrite the narrative of rural decline and crisis and show through solid research and impeccable scholarship that rural Midwesterners have confronted and created challenges uniquely their own **Mother Jones Magazine** ,1977-05 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues
