The Political Economy Of Mountain Java An Interpretive History:

The Political Economy of Mountain Java Robert W. Hefner, 2023-09-01 A rich and sensitive portrait of a changing peasantry this study is also a general inquiry into the nature of status class and community in the developing world Robert Hefner presents an analysis designed to bridge the gap between village studies and social history He describes the forces that have shaped upland politics and society from pre colonial times to the Green Revolution today A rich and sensitive portrait of a changing peasantry this study is also a general inquiry into the nature of status class and community in the developing world Robert Hefner presents an analysis designed to bridge the gap between village studies and *In the Shadow of Migration* J. Rodenburg, 2021-11-01 This study explores the relationship between outmigration and gender roles in two villages in North Tapanuli on the island of Sumatra in Indonesia In a symbolic sense land and women have always represented security to Toba Batak men as they travelled in search of a livelihood The main purpose of this study is to throw light on the options open to the women staying behind and the adjustments they make as well as their reasons for making them The approach followed is an anthropological one It combines an analysis of actor oriented perceptions and strategies with an insight into the structural forces that formed the context of migration as it developed from the late nineteenth century through the colonial period until today

Historical Dictionary of Indonesia Audrey Kahin, 2015-10-29 A wide flung archipelago lying between the Pacific and Indian Oceans Indonesia is the world's most populous Islamic country For over two thousand years it was a crossroads on the major trading route between China and India but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century Declaring its independence from the Dutch in 1945 the Republic of Indonesia was ruled by only two regimes over the next half century Throughout the years the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption However since 2004 Indonesia has successfully carried out four direct elections for president together with an equal number of elections for legislative bodies at all levels of government and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure This third edition of Historical Dictionary of Indonesia contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 900 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Indonesia

Hizbut Tahrir Indonesia and Political Islam Mohamed Nawab Mohamed Osman, 2018-05-15 This book offers a timely examination of Hizbut Tahrir Indonesia HTI a chapter of the transnational movement Hizb ut Tahrir HT whose key aim is the revival of the caliphate It cautions against an overly simplistic read of a group like HTI and political Islam in Indonesia While there is much to laud particularly with regard to how leaders in Indonesia have attempted to counteract Islamist extremism insofar as the trajectory of non violent Islamism in Indonesia is concerned there are clear reasons for

apprehension Groups like the HTI have been adept at using the democratic space in Indonesia to propound their illiberal objectives including encouraging the curtailment of Indonesian art forms deemed un-Islamic and more importantly pushing for certain Islamic sects such as the Ahmadiyahs to be banned Yet despite its extreme posturing HTI is accepted as a mainstream Muslim organization As such the Indonesian chapter of Hizb ut Tahrir represents a unique case unlike other chapters which are deemed extreme and fringe HTI though radical still exists within the space provided by the Indonesian religio-political landscape This book offers new insights into HTI's history organizational structure and ideology adding considerable new details about HTI and correcting errors in existing literature while directing its primary focus on explaining HTI's rapid growth in Indonesia The central argument is that the key to understanding HTI's growth lies in the role collective identity plays in attracting new members and retaining its existing members within the party Factors such as institutional and non-institutional opportunities within the Indonesian political system HTI's resource mobilization strategies and the anti-systemic ideology of HTI serve as political organizational and religious incentives for individuals to join the party and launch collective action This goes on to emphasize and show that collective identity remains the most crucial factor in the party's growth Analysing this process of collective identity formation and its impact on recruitment and membership retention is central to this book This book will be of much interest to students of Southeast Asian politics regional security political Islam and International Relations in general

The Relevance of Regions in a Globalized World Galia Press-Barnathan, Ruth Fine, Arie M. Kacowicz, 2018-11-09 This volume provides a unique open inter-disciplinary dialogue across the Humanities and Social Sciences to further our understanding of the phenomenon of regions and regionalism in a globalized world both at the theoretical and empirical levels What comprises a region What are the different regional dynamic processes that take place What is the relationship between the regional and the global What role does identity building play Bringing together scholars from various disciplines within and across the Social Sciences and the Humanities to reflect on these questions the book explores how regions are imagined constructed understood and explained in different academic disciplines Each chapter addresses these common questions and uses its own disciplinary lenses to answer them In addition the volume offers interesting reflections on the academic borders constructed in the study of regions thus demonstrating the importance of obtaining insights from both social scientists and humanities scholars in order to better understand the relevance of regions in a complex and globalized world An important work for scholars and postgraduate students in many fields including political science international relations sociology economics geography history and literature as well as for those interested in regionalism and area studies
