Deleuzian Concepts Paul Patton, 2010-05-19 Patton s book is an important and innovative contribution to Deleuze studies and to contemporary debates in philosophy and the humanities His arguments are convincing and stimulating they open the way for a new and sober reading of Deleuze and bring him into dialogue with the tradition of political liberalism and pragmatism His use of the concept of the event to understand the history of colonization gives the reader a compelling example of what the political function of philosophy is or could be Paola Marrati The Johns Hopkins University Book Jacket

Religion and Cultural Memory Jan Assmann, Rodney Livingstone, 2006 In ten brilliant essays Jan Assmann explores the connections between religion culture and memory Building on Maurice Halbwachs s idea that memory like language is a social phenomenon as well as an individual one he argues that memory has a cultural dimension too He develops a persuasive view of the life of the past in such surface phenomena as codes religious rites and festivals and canonical texts on the one hand and in the Freudian psychodrama of repressing and resurrecting the past on the other Whereas the current fad for oral history inevitably focuses on the actual memories of the last century or so Assmann presents a commanding view of culture extending over five

thousand years He focuses on cultural memory from the Egyptians Babylonians and the Osage Indians down to recent controversies about memorializing the Holocaust in Germany and the role of memory in the current disputes between Israelis and Palestinians in the Middle East and between Protestants and Catholics in Northern Ireland **Metamimesis** Mattias Pirholt,2012 Reconsiders the role played by mimesis and by Goethe s Wilhelm Meister as a mimetic work in the novels of Early German Romanticism **The Matrix of Visual Culture** Patricia Pisters,2003 This book explores Gilles Deleuze s contribution to film theory According to Deleuze we have come to live in a universe that could be described as metacinematic His conception of images implies a new kind of camera consciousness one that determines our perceptions and sense of selves aspects of our subjectivities are formed in for instance action images affection images and time images We live in a matrix of visual culture that is always moving and changing Each image is always connected to an assemblage of affects and forces This book presents a model as well as many concrete examples of how to work with Deleuze in film theory It asks questions about the universe as metacinema subjectivity violence feminism monstrosity and music Among the contemporary films it discusses within a Deleuzian framework are Strange Days Fight Club and Dancer in the Dark **Husserl's Phenomenology** Dan Zahavi,2003 Drawing upon both Husserl s published works and posthumous material Husserl s Phenomenology incorporates the results of the most recent Husserl research It can consequently serve as a concise and updated introduction to his thinking **The Aesthetic Paths of Philosophy** Alison Ross,2007 Ross argues that the thinking of Heidegger Lacoue Labarthe and Nancy must be understood as ways of addressing the problem of presentation as framed by and inherited from Kant s Critique of Judgment **The Idea of Form** Rodolphe Gasché,2003 Against the assumption that aesthetic form relates to a harmonious arrangement of parts into a beautiful whole this book argues that reason is the real theme of the Critique of Judgment as of the two earlier Critiques Since aesthetic judgment of the beautiful becomes possible only when the mind is confronted with things of nature for which no determined concepts of understanding are available aesthetic judgment is involved in an epistemological or rather para epistemological task The predicate beautiful indicates that something has minimal form and is cognizable This book explores this concept of form in particular the role of presentation Darstellung in what Kant refers to as mere form which involves not only the understanding but also reason as the faculty of ideas Such a notion of form reveals why the beautiful can be related to the morally good On the basis of this reinterpreted concept of form most major concepts and themes of the Critique of Judgment such as disinterestedness free play the sublime genius and beautiful arts are examined by the author and shown in a new light *The Jew, the Arab* Gil Anidjar,2003 This book argues that in Christian Europe the question of the enemy has for millennia been structured by the historical relation of Europe to both Arab and Jew It provides a philosophical understanding of the background of the current conflict in the Middle East
