The Politics of Assimilation Charles F. Doran, 1971 *The Politics of Assimilation* Charles F. Doran, 1971 *The Quest for Hegemony in the Arab World* Podeh, 2022-02-22 The struggle between Egypt and Iraq over Arab hegemony constitutes the main theme of this study Focussing on the struggle over Middle Eastern defense between 1945 58 and culminating in the conflict over the Baghdad Pact 1955 58 it sheds new light on Arab politics during the period under review This research concentrates predominantly on the regional actors The underlying assumption is that policies were not necessarily formulated in Washington and London and that often enough major decisions taken in Ankara Cairo Baghdad Damascus Amman and other Arab capitals affected decision makers in Western capitals The Quest for Hegemony in the Arab World is based on newly released British American and Israeli documents as well as on all available Arab sources The study s value rests upon its discussion of the Baghdad Pact a significant event which was hitherto neglected yet marked a watershed in modern Arab history This study s approach offers an analytical framework with which the present struggle for hegemony in the Arab world may be examined

The H-Word Perry Anderson, 2022-11-29 A fascinating history of the political theory of hegemony Few terms are so widely used in the literature of international relations and political science with so little agreement about their exact meaning as hegemony In the first full historical study of its fortunes as a concept Perry Anderson traces its emergence in Ancient Greece and its rediscovery during the upheavals of 1848 1849 in Germany He then follows its checkered career in revolutionary Russia fascist Italy Cold War America Gaullist France Thatcher s Britain post colonial India feudal Japan Maoist China eventually arriving at the world of Merkel and May Bush and Obama The result is a surprising and fascinating expedition into global intellectual history ending with reflections on the contemporary political landscape

Bound to Lead Joseph S Nye Jr, 2016-03-01 Is America still Number 1 A leading scholar of international politics and former State Department official takes issue with Paul Kennedy and others and clearly demonstrates that the United States is still the dominant world power with no challenger in sight But analogies about decline only divert policy makers from creating effective strategies for the future says Nye The nature of power has changed The real and unprecedented challenge is managing the transition to growing global interdependence **Hegemonic War and Grand Strategy** Aaron M.

Zack,2016-11-23 Ludwig Dehio advances a theory of the historical dynamic of the modern European state system 1494 1945 and its hegemonic wars After explaining Dehio s thoughts about why none of the European Powers were successful in their attempts to conquer the Continent the text analyzes bids for hegemony in the historical Hellenic Hellenistic Roman Renaissance Italian modern European and western hemispheric state systems The purpose of these analyses is to demonstrate how Dehio s thought illuminates the dynamics of hegemonic conflicts Additionally in these chapters we note how prior hegemonic struggles illuminate some of the dilemmas of contemporary American grand strategy The manuscript then considers how Dehio s thoughts on hegemony enrich our understanding of contemporary challenges such as the struggles for power in the Middle East and East Asia the rise of China and its Western Hemispheric ambitions and American grand strategic options The text concludes by arguing that Dehio s thought suggests that particular grand strategies will partially determine the global system s movement towards destructive bids for hegemony or a viable plural order
