The Philippines David Joel Steinberg, 2018-02-19 A unified nation with a single people the Philippines is also a highly fragmented plural society Divided between uplander and lowlander rich and poor Christian and Muslim between those of one ethnic linguistic and geographic region and those of another the nation is a complex mosaic formed by conflicting forces of consensus and national identity and of division and instability It is not possible to comprehend the many changes in the Philippines such as the rise and fall of Ferdinand Marcos or the revolution that toppled him without an awareness of the religious cultural and economic forces that have shaped the history of these islands These forces formed the focus of the first edition of *The Philippines* Of that 1982 edition the late Benigno Aquino Jr noted that anyone wanting to understand the Philippines and the Filipinos today must include this book in his must reading list The fourth edition has been updated through the final years of the Ramos presidency and contains a new section on the impact of President Estrada

Corruption, Capitalism and Democracy John Girling, 2002-03-11 Corruption arises from the collusion of economic and political elites a practice that has developed in order to overcome the contradiction of two important processes of our time capitalism and democracy In this new study of the phenomenon the author shows how corruption is the practice of collusion taken to excess the unacceptable face of capitalism Corruption by going too far exposes what is normally hidden from view the collusive system of elites furthering the expansion of capitalist practice and market practice at the expense of democratic practice and public values

Booty Capitalism Paul D. Hutchcroft, 2019-04-15 In the early postwar years the Philippines seemed poised for long term economic success within the region only Japan had a higher

standard of living By the early 1990s however the country was dismissed as a perennial aspirant to the ranks of newly industrializing economies unable to convert its substantial developmental assets into developmental success Major reforms of the mid 1990s bring new hope explains Paul D Hutchcroft but accompanying economic gains remain relatively modest and short lived What has gone wrong The Philippines should have all the ingredients for developmental success tremendous entrepreneurial talents a well educated and anglophone workforce a rich endowment of natural resources a vibrant community of economists and development specialists and abundant overseas assistance Hutchcroft attributes the laggard economic performance to long standing deficiencies in the Philippine political sphere The country s experience he asserts illuminates the relationship between political and economic development in the modern Third World Through careful examination of interactions between the state and the major families of the oligarchy in the banking sector since 1960 Hutchcroft shows the political obstacles to Philippine development Booty capitalism he explains emerged from relations between a patrimonial state and a predatory oligarchy Hutchcroft concludes by examining the capacity of recent reform efforts to encourage transformation toward a political economic order more responsive to the developmental needs of the Philippine nation as a whole

In the Name of Civil Society Eva-Lotta Hedman, 2005-11-30 *In the Name of Civil Society* examines Philippine politics in a highly original and provocative way Hedman s detailed analysis shows how dominant elites in the Philippines shore up the structures of liberal democracy in order to ensure their continued hegemony over Philippine society This book will be of interest to everyone concerned with civil society and the processes of democratization and democracy in capitalist societies Paul D Hutchcroft University of Wisconsin Madison What is the politics of civil society Focusing on the Philippines home to the mother of all election watch movements the original People Power revolt and one of the largest and most diverse NGO populations in the world Eva Lotta Hedman offers a critique that goes against the grain of much other current scholarship Her highly original work challenges celebratory and universalist accounts that tend to reify civil society as a unified and coherent entity and to ascribe a single meaning and automatic trajectory to its role in democratization She shows how mobilization in the name of civil society is contingent on the intercession of citizens and performative displays of citizenship as opposed to other appeals and articulations of identity such as class In short Hedman argues the very definitions of civil and society are at stake Based on extensive research spanning the course of a decade 1991-2001 this study offers a powerful analysis of Philippine politics and society inspired by the writings of Antonio Gramsci It draws on a rich collection of sources from archives interviews newspapers and participant observation It identifies a cycle of recurring crises of authority involving mounting threats from above and below to oligarchical democracy in the Philippines Tracing the trajectory of Gramscian dominant bloc of social forces Hedman shows how each such crisis in the Philippines promotes a countermobilization by the intellectuals of the dominant bloc the capitalist class the Catholic Church and the U S government In documenting the capacity of so called secondary associations business lay professional to project moral and

intellectual leadership in each of these crises this study sheds new light on the forces and dynamics of change and continuity in Philippine politics and society
