Earth, The Gods and The Soul - A History of Pagan Philosophy Brendan Myers, 2013-11-29 Philosophy was invented by pagans Yet this fact is almost always ignored by those who write the history of ideas This book tells the history of the pagan philosophers and the various places where their ideas appeared from ancient times to the 21st century The Pagan philosophers are a surprisingly diverse group from kings of great empires to exiled lonely wanderers from devout religious teachers to con artists drug addicts and social radicals Three traditions of thought emerge from their work Pantheism NeoPlatonism and Humanism corresponding to the immensities of the Earth the Gods and the Soul From ancient schools like the Stoics and the Druids to modern feminists and deep ecologists the pagan philosophers examined these three immensities with systematic critical reason and sometimes with poetry and mystical vision This book tells their story for the first time in one volume and invites you to examine the immensities with them And as a special feature the book includes summaries of the ideas of leading modern pagan intellectuals in their own words Emma Restall Orr Michael York John Michael Greer Vivianne Crowley and more

Visual Communication David Machin, 2014-04-30 The primary goal of the volume on Visual Communication is to provide a collection of high quality accessible papers that offer an overview of the different academic approaches to Visual Communication the different theoretical perspectives on which they are based the methods of analysis used and the different media and genre that have come under analysis There is no such existing volume that draws together this range of closely related material generally found in much less related areas of research including semiotics art history design and new media theory The volume has a total of 34 individual chapters that are organized into two sections theories and methods and areas of visual analysis The chapters are all written by quality theorists and researchers with a view that the research should be accessible to non specialists in their own field while at the same time maintaining a high quality of

work The volume contains an introduction which plots and locates the different approaches contained in it within broader developments and history of approaches to visual communication across different disciplines as each has attempted to define its terrain sometimes through unique concepts and methods sometimes through those borrowed and modified from others
