The Politicization Of Economic Decisions:

The Politicization of Economic Decisions Alan A. Walters, 1976 Assessing the Lee Teng-hui Legacy in Taiwan's Politics Bruce Dickson, Chien-Min Chao, 2016-09-16 The 12 years of Lee Teng hui s presidency were marked by a series of contrary trends such as progress in the consolidation of Taiwan s democracy and periodic conflicts with China This book assesses the complex legacy of Lee Teng hui by looking at his accomplishments and setbacks **East European economies** , 1986 **The Politics of Economic Reform in Germany** Kenneth Dyson, Stephen Padgett, 2014-07-16 This new volume situates current debates about economic reform in Germany in illuminating historical and structural contexts Showing how economic reform has become the central issue on the German political agenda raising contentious issues of policy management and posing deeper questions about political beliefs and identities It also examines the politics of the reform process outlining competing views about the root causes of Germany s economic problems the appropriate policy responses and the distribution of costs It situates the reform process in the wider context of the decline of the German economic model Modell Deutschland and Germany s transition from European pace setter to economic laggard Particular attention is paid to the following key questions What continuities and discontinuities can be seen in Germany s political economy Are globalization and Europeanization associated with a progressive neo liberal ascendancy in economic reform How does economic reform in Germany compare with that in other states notably Britain and France Are there distinctive patterns in the way domestic policymakers negotiate economic reform How do the characteristics of the German labour market and welfare state condition economic reform How much variation exists at the Laender levels This book was previously published as a special issue of German Politics **The Politics of Patronage in Africa** Roger K. Tangri, 1999 This is a survey of the influence of political factors on economic performance throughout Africa with case studies drawn from Ghana Zambia and Uganda It is a comparative study of the difficulties in developing a private enterprise economy *The Politics of Economic Reform in South Korea* Tat Yan Kong, 2013-10-11 This comprehensive and authoritative account of the development of the Korean economy combines an historical approach with a substantial treatment of the new economy Its fresh analysis of the recent transition and systematic treatment of labour issues represent a significant contribution to the scholarship on the politics of development It is an essential resource for students of comparative political economy and East Asian development The Politics of Economic Planning Alan Budd, 1978 **Comparative Socialist Systems** Carmelo Mesa-Lago, Carl Beck, 2010-11-23 The editors have merged work from two disciplines economics and political science in a summary conclusion a sociologist suggests possible extensions in the comparison of socialist systems for the future contributes generously to the field Slavic Review **The Politicisation of Economic Decisions** Alan Arthur Walters, 1973-01-01 **The Judicial Politics of Economic Integration** Osvaldo Saldias, 2013-08-22 The Judicial Politics of Economic Integration analyses development strategies and regional integration in the Andean Community the former Andean

Pact focusing on the establishment of the Andean Court of Justice and its case law as well as the intellectual underpinnings that made such an impressive reform possible. The court is a transplant taken from the European integration process and it materializes the visions, expectations and dreams of the transnational development movement of integration through law. The book discusses the outcomes of the Court in light of the debates about judicial reform in the process of development and regional integration. Although clearly confirming several earlier claims that one size does not fit all, Osvaldo Saldias provides new insights into how legal transplants adapt and evolve and how we can learn much more about legal reform from a project that presumably failed than from successful copies. The Andean Court of Justice is a remarkable example of an institution capable of adapting to political and economic challenges; therefore, in times of a severe European economic crisis, we should not forget that we might improve our understanding of European integration by looking at developments in other regions. An interesting new study with an international focus, this book will be a fascinating read for students and scholars of Law and Latin American Studies.
