The Politics of Delegation Alec Stone Sweet, Mark Thatcher, 2004-08-02 There is a growing interest in delegation to non majoritarian institutions in Europe following both the spread of principal agent theory in political science and law and increasing delegation in practice During the 1980s and 1990s governments and parliaments in West European nations have delegated powers and functions to non majoritarian bodies the EU independent central banks constitutional courts and independent regulatory agencies Whereas elected policymakers had been increasing their roles over several decades delegation involves a remarkable reversal or at least transformation of their position This volume examines key issues about the politics of delegation how and why delegation has taken place the institutional design of delegation to non majoritarian institutions the consequences of delegation to non majoritarian institutions the legitimacy of non majoritarian institutions The book addresses these questions both theoretically and empirically looking at central areas of political life central banking the EU the increasing role of courts and the establishment and impacts of independent regulatory agencies *The Politics of Delegation* Alec Stone Sweet, Mark Thatcher, 2004-08-02 There is a growing interest in delegation to non majoritarian institutions in Europe following both the spread of principal agent theory in political science and law and increasing delegation in practice During the 1980s and 1990s governments and parliaments in West European nations have delegated powers and functions to non majoritarian bodies the EU independent central banks constitutional courts and independent regulatory agencies Whereas elected policymakers had been increasing their roles over several decades delegation involves a remarkable reversal or at least transformation of their position This volume examines key issues about the politics of delegation how and why delegation has taken place the institutional design of delegation to non majoritarian institutions the consequences of delegation to non majoritarian institutions the legitimacy of non majoritarian institutions The book addresses these questions both theoretically and empirically looking at central areas of political life central banking the EU the increasing role of courts and the establishment and impacts of independent regulatory agencies **Empowered Autonomy: the Politics of Delegation & Accountability in Mexico** John M. Lewis, 2004-09-02 The administrative state is the nexus of American policy making in the postwar period The vague and sometimes conflicting policy mandates of Congress the president and courts are translated into real public policy in the bureaucracy As the role of the national government has expanded the national legislature and executive have increasingly delegated authority to administrative agencies to make fundamental policy decisions How this administrative state is designed its coherence its responsiveness and its efficacy determine in Robert Dahl s phrase who gets what when and how This study of agency design

thus has implications for the study of politics in many areas The structure of bureaucracies can determine the degree to which political actors can change the direction of agency policy Politicians frequently attempt to lock their policy preferences into place through insulating structures that are mandated by statute or executive decree This insulation of public bureaucracies such as the National Transportation Safety Board the Federal Election Commission and the National Nuclear Security Administration is essential to understanding both administrative policy outputs and executive legislative politics in the United States This book explains why when and how political actors create administrative agencies in such a way as to insulate them from political control particularly presidential control The Politics of Delegation ,2002 **Strategically**
