Political Theology on Edge Clayton Crockett, Catherine Keller, 2021-12-07 In Political Theology on Edge the discourse of political theology is seen as situated on an edge that is on the edge of a world that is grappling with global warming a brutal form of neoliberal capitalism protests against racism and police brutality and the COVID 19 pandemic This edge is also a form of eschatology that forces us to imagine new ways of being religious and political in our cohabitation of a fragile and shared planet Each of the essays in this volume attends to how climate change and our ecological crises intersect and interact with more traditional themes of political theology While the tradition of political theology is often associated with philosophical responses to the work of Carl Schmitt and the critical attempts to disengage religion from his rightwing politics the contributors to this volume are informed by Schmitt but not limited to his perspectives They engage and transform political theology from the standpoint of climate change the politics of race and non Christian political theologies including Islam and Sikhism Important themes include the Anthropocene ecology capitalism sovereignty Black Lives Matter affect theory continental philosophy destruction and suicide This book features world renowned scholars and emerging voices that together open up the tradition of political theology to new ideas and new ways of thinking Contributors Gil Anidjar Balbinder Singh Bhogal J Kameron Carter William E Connolly Kelly Brown Douglas Seth Gaiters Lisa Gasson Gardner Winfred Goodwin Lawrence Hillis Mehmet Karabela Michael Northcott Austin Roberts No lle Vahanian Larry L Welborn *Rational Suicide, Irrational Laws* Susan Stefan, 2016-02-25 When should we try to prevent suicide Should it be facilitated for some people in some circumstances For the last forty years law and policy on suicide have followed two separate and distinct tracks laws aimed at preventing suicide and increasingly laws aimed at facilitating it In Rational Suicide Irrational Laws legal scholar Susan Stefan argues that these laws co exist because they are based on two radically disparate conceptions of the would be suicide This is the first book that unifies policies and laws including constitutional law criminal law malpractice law and civil commitment law toward people who want to end their lives Based on the author s expert understanding of mental health and legal systems analysis of related national and international laws and policy and surveys and interviews with more than 300 suicide attempt survivors doctors lawyers and mental health professionals Rational Suicide Irrational Laws exposes the counterproductive nature of current policies and laws about suicide Stefan proposes and defends specific reforms including increased protection of mental health professionals from liability increased protection of suicidal people from coercive interventions reframing medical involvement in assisted suicide and focusing on approaches to suicidal people that help them rather than assuming suicidality is always a symptom of mental illness Stefan compares policies and laws in different states

in the U S and examines the policies and laws of other countries in Europe Asia and the Americas including the 2015 legalization of assisted suicide in Canada The book includes model statutes seven in depth studies of people whose cases presented profound ethical legal and policy dilemmas and over a thousand cases interpreting rights and responsibilities relating to suicide especially in the area of psychiatric malpractice The Suicide of American Christianity Michael D. LeMay,2012 The author host of the daily Christian radio show Stand up for the truth shares his observations on the influence of secular humanism on the current and future states of American Christianity while detailing his perceptions of secular humanism within current American culture *Myths about Suicide* Thomas Joiner,2011-11-30 Around the world more than a million people die by suicide each year Yet many of us know very little about a tragedy that may strike our own loved ones and much of what we think we know is wrong This clear and powerful book dismantles myth after myth to bring compassionate and accurate understanding of a massive international killer Drawing on a fascinating array of clinical cases media reports literary works and scientific studies Thomas Joiner demolishes both moralistic and psychotherapeutic clichés He shows that suicide is not easy cowardly vengeful or selfish It is not a manifestation of suppressed rage or a side effect of medication Threats of suicide far from being idle are often followed by serious attempts People who are prevented once from killing themselves will not necessarily try again The risk for suicide Joiner argues is partly genetic and is influenced by often agonizing mental disorders Vulnerability to suicide may be anticipated and treated Most important suicide can be prevented An eminent expert whose own father's death by suicide changed his life Joiner is relentless in his pursuit of the truth about suicide and deeply sympathetic to such tragic waste of life and the pain it causes those left behind Physical Culture ,1902

Foreign Bodies Anat Gur,2018-08-06 *Foreign Bodies Eating Disorders Childhood Sexual Abuse and Trauma Informed Treatment* addresses the association between eating disorders and childhood sexual abuse proposing a new way of treating those suffering from eating disorders who were sexually abused as children Based on testimonies of survivors of abuse who subsequently developed eating disorders it offers a new form of diagnosis and treatment arguing that the eating disorder field often ignores the traumatic sources of eating disorders leading to some treatment programs not being commensurate and at times conflicting with the principles of childhood sexual abuse treatment The case studies used to highlight the link between childhood sexual abuse and eating disorders are presented from the perspective of the women involved in their own words Their voices are supplemented by Gur's own stance as a clinician specializing in the treatment of sexual abuse and CPTSD The book is divided into three parts the first deals with eating disorders childhood sexual abuse and the association between them the second examines the treatment of eating disorders and childhood sexual abuse and the third offers a new form of diagnosis and treatment for eating disorders This book will be of great interest to researchers and postgraduate students in the eating disorder field of psychotherapy psychology or psychiatry plus those studying the treatment of trauma It will also be of interest to clinical dietitians psychologists social workers doctors nurses eating disorder specialists and

growing uncertainty about the ultimate ends of technological innovation and the intelligibility of the digital future The posthuman future is elusive is it a gathering storm of cynical abandonment inertia disappearance and substitution Or else the development of a new form of critical consciousness the posthuman imagination as a means of comprehending the full complexity of life Depending on which exit to the posthuman future we choose or perhaps which exit chooses us Kroker argues that a very different posthuman future will likely ensue **Babes in Tomorrowland** Nicholas Sammond,2005-07-20
