**Lies** Rachelle M. Smith,2022-01-11 This encyclopedia examines the phenomenon of deception from a variety of perspectives and in a multitude of contexts It offers readers an accessibly written and engaging resource that sheds light on when why and how we lie Ironically it seems to be a universal truth that everyone lies From innocent white lies to elaborate deceptions humans appear to be hard wired for dishonesty But what psychological or evolutionary purpose does lying serve What motivates us to lie and what effects do such lies have on those around us and on our own physiology and mental health What are the differences between types of lies and how do various forms of dishonesty manifest themselves in such areas as politics advertising and social media And perhaps most importantly how can we spot liars in our everyday lives and encourage those around us and even ourselves to be more honest

**After the Act** Mavis Maclean,John Eekelaar,2019-04-18 After the Act describes the aftermath of the recent removal under LASPO of public funding from legal services in family matters other than in defined cases such as child protection and domestic abuse Through analysis of the policy context interviews with key players observation of services provided by lawyers students lay support workers and the advice sector the authors outline the work being done and the skills being used in a range of settings The book raises

questions not only about access to family justice but about the role of law in family matters in an increasingly post legal society Fragmentation of the market in the new services offering information initial advice online or alternative dispute resolution but rarely ongoing casework raises questions about where costs fall and how quality can be assured Many of these services are forms of private ordering where outcomes are hard to assess If neither the state nor the individual can afford full legal services where the best interests of any child involved are of paramount importance and lawyers negotiate to make best use of the resources available perhaps it is time to consider using lawyers differently with lay support to solve problems before they become disputes
