*Comic Cure for Delusional Democracy* Gene Fendt, 2014-07-16 This book shows how the discussion of Plato's Republic is a comic mimetic cure for civic and psychic delusion Plato creates such pharmaka or noble lies for reasons enunciated by Socrates within the discussion but this indicates Plato must think his readers are in the position of needing the catharses such fictions produce Socrates interlocutors must be like us Since cities are like souls and souls come to be as they are through mimesis of desires dreams actions and thought patterns in the city we should expect that political theorizing often suffers from madness as well It does Gene Fendt shows how contemporary political and psychological theory still suffers from the same delusion Socrates interlocutors reveal in their discussion a dream of autarchia called possessive individualism Plato has good reason to think that only a mimetic rather than a rational and philosophical cure can work Against many standard readings *Comic Cure for Delusional Democracy* shows that the Republic itself is a defense of poetry that kallipolis cannot be the best city and is not Socrates ideal that there are six forms of regime not five and that the true philosopher should not be unhappy to go back down into Plato's cave

Freedom and Responsibility in Neoplatonist Thought Ursula Coope, 2020-04-16 The Neoplatonists have a perfectionist view of freedom an entity is free to the extent that it succeeds in making itself good Free entities are wholly in control of themselves they are self determining self constituting and self knowing Neoplatonist philosophers argue that such freedom is only possible for non bodily things The human soul is free insofar as it rises above bodily things and engages in intellection but when it turns its desires to bodily things it is drawn under the sway of fate and becomes enslaved Ursula Coope discusses this notion of freedom and its

relation to questions about responsibility She explains the important role of notions of self reflexivity in Neoplatonist accounts of both freedom and responsibility In Part I Coope sets out the puzzles Neoplatonist philosophers face about freedom and responsibility and explains how these puzzles arise from earlier discussions Part II explores the metaphysical underpinnings of the Neoplatonist notion of freedom concentrating especially on the views of Plotinus and Proclus In what sense if any is the ultimate first principle of everything the One free If everything else is under this ultimate first principle how can anything other than the One be free What is the connection between freedom and nonbodiliness Finally Coope considers in Part III questions about responsibility arising from this perfectionist view of freedom Why are human beings responsible for their behaviour in a way that other animals are not If we are enslaved when we act viciously how can we be to blame for our vicious actions and choices

*Lying and Telling the Truth for Kids* Samantha Jones,2015-02-26 Telling lies seems harmless to most of us when we speak them However no matter how good your intentions may be and no matter how harmless you may consider them to be you must realize that telling lies can never do any help to you More importantly lies or false statements can have a significant impact on what people think of you or what shape your relationships with others will take One of the most vital emotions that lying gives rise to in an individual is a feeling of guilt or shame which can be detrimental to the individual's self image and confidence This can have a significant impact of how an individual views himself This book covers all the different aspects of how lying can be detrimental to your own personality and how the world views you

[Maritime Heritage in Crisis](#) Richard M. Hutchings,2016-12-08 Grounded in critical heritage studies and drawing on a Pacific Northwest Coast case study *Maritime Heritage in Crisis* explores the causes and consequences of the contemporary destruction of Indigenous heritage sites in maritime settings Maritime heritage landscapes are undergoing a period of unprecedented crisis these areas are severely impacted by coastal development continued population growth and climate change Indigenous heritage sites are thought to

be particularly vulnerable to these changes and cultural resource management is frequently positioned as a community's first line of defense yet there is increasing evidence that this archaeological technique is an ineffective means of protection Exploring themes of colonial dislocation and displacement Hutchings positions North American archaeology as neoliberal statecraft a tool of government designed to promote and permit the systematic clearance of Indigenous heritage landscapes in advance of economic development Presenting the institution of archaeology and cultural resource management as a grave threat to Indigenous maritime heritage Maritime Heritage in Crisis offers an important lesson on the relationship between neoliberal heritage regimes and global ecological breakdown **Integrity, Honesty, and Truth Seeking** Christian B.

Miller, Ryan West, 2020-03-04 We tend to admire people who stay true to their convictions in the face of opposition who are not tempted to twist or withhold the truth for selfish reasons and who seek the truth even when it means giving up their cherished views Indeed integrity honesty and truth seeking are crucial virtues on both intimate and global scales significant in everything from our relationships to our politicians accountability The past forty years have witnessed a dramatic resurgence of philosophical interest in the virtues And yet there has been surprisingly little work among philosophers aimed at helping us better understand these three truth related virtues Edited by philosophers Christian B Miller and Ryan West this interdisciplinary volume significantly advances the discussion of integrity honesty and truth seeking by incorporating the insights and perspectives of experts in philosophy law communication and rhetorical studies theology psychology history and education Each of the volume's three sections is devoted to one virtue and comprises a conceptual chapter about the nature of the virtue in question an application chapter that explores the virtue's central role in an area of human life and a developmental chapter covering some of the ways people can foster the virtue Additionally the volume addresses experimental work on honest and dishonest behavior one of the fastest growing and most important research areas in the field of moral psychology today Every reader will come away from this volume with a deepened knowledge of and appreciation for the essential roles of these three virtues in our world and rich resources for developing and sustaining them in life **Behavioural Investing** James Montier, 2007-10-29 Behavioural investing seeks to bridge the gap between

**Tragedy and Redress in Western Literature** Richard Gaskin, 2018-05-04 This book offers a unique interpretation of tragic literature in the Western tradition deploying the method and style of Analytic philosophy Richard Gaskin argues that tragic literature seeks to offer moral and linguistic redress compensation for suffering Moral redress involves the balancing of a protagonist's suffering with guilt and vice versa Gaskin contends that to a much greater extent than has been recognized by recent critics traditional tragedy represents suffering as incurred by avoidable and culpable mistakes of a cognitive nature Moral redress operates in the first instance at the level of the individual agent Linguistic redress by contrast operates at a higher level of generality namely at the level of the community its fundamental motor is the sheer expressibility of suffering in words Against many writers on tragedy Gaskin argues that language is competent to express pain and suffering and that tragic literature has that expression as one of its principal purposes The definition of tragic literature in this book is expanded to include more than stage drama the treatment stretches from the Classical and Medieval periods through to the early twentieth century There is a special focus on Sophocles but Gaskin takes account of most other major tragic authors in the European tradition including Homer Aeschylus Euripides Virgil Seneca Chaucer Marlowe Shakespeare Corneille Racine Lessing Goethe Schiller Kleist Büchner Ibsen Hardy Kafka and Mann lesser known areas such as Renaissance neo Latin tragedy are also covered Among theorists of tragedy Gaskin concentrates on Aristotle and Bradley but the contributions of numerous contemporary commentators are also assessed Tragedy and Redress in Western Literature A Philosophical Perspective offers a new and genuinely interdisciplinary perspective on tragedy that will be of considerable interest both to philosophers of literature and to literary critics
