Bible and Poetry in Late Antique Mesopotamia Jeffrey Wickes, 2019-09-17 Ephrem the Syrian was one of the founding voices in Syriac literature While he wrote in a variety of genres the bulk of his work took the form of *madrashas* a Syriac genre of musical poetry or hymns In *Bible and Poetry in Late Antique Mesopotamia* Jeffrey Wickes offers a thoroughly contextualized study of Ephrem's magnum opus the *Hymns on Faith* delivered in response to the theological controversies that followed the First Council of Nicaea The ensuing doctrinal divisions had tremendous impact on the course of Christianity and led in part to the development of a uniquely Syriac Church in which Ephrem would become a central figure Drawing on literary ritual and performance theories *Bible and Poetry* shows how Ephrem used the Syriac Bible to construct and conceive of himself and his audience In so doing Wickes resituates

theological method *Byzantine Orthodoxies* Augustine Casiday, Andrew Louth, 2017-09-29 The Byzantine Empire the Christianized Roman Empire very soon defined itself in terms of correct theological belief orthodoxy The terms of this belief were hammered out for the most part by bishops but doctrinal decisions were made in councils called by the Emperors many of whom involved themselves directly in the definition of orthodoxy Iconoclasm was an example of such imperial involvement as was the final overthrow of iconoclasm That controversy ensured that questions of Christian art were also seen by Byzantines as implicated in the question of orthodoxy The papers gathered in this volume derive from those presented at the 36th Spring Symposium of Byzantine Studies Durham March 2002 They discuss how orthodoxy was defined and the different interests that it represented how orthodoxy was expressed in art and the music of the liturgy and how orthodoxy helped shape the Byzantine Empire s sense of its own identity an identity defined against the other Jews heretics and especially from the turn of the first millennium the Latin West These considerations raise wider questions about the way in which societies and groups use world views and issues of belief to express and articulate identity At a time when with the enlargement of the European Union questions of identity within Europe are once again becoming pressing there is much in these essays of topical relevance **Reconstructing Early Christian Worship** Paul F. Bradshaw, 2010 First published in 2009 by the Society for Promoting Christian Knowledge T p verso **Eucharistic Origins, Revised Edition** Paul F. Bradshaw, 2023-06-20 Eucharistic Origins was published a number of years ago This revised edition continues to incorporate the work of the latest liturgical scholars in establishing that the earliest Christian celebrations arose out of varied forms of their ritual meals and not out of the Last Supper The custom of centering Christian practice in ritual meals seems to have lasted for about one hundred and fifty years before it began to be replaced by morning meetings at which the sacrament was distributed and subsequently by a complete celebration of the Eucharist It is here in the third and fourth centuries and not in the distant Jewish past that the forms of the classical eucharistic prayers emerged and developed The most important of these are presented in full and their theology discussed **Language and Religion** Robert Yelle, Courtney Handman, Christopher Lehrich, 2019-02-19 This volume draws on an interdisciplinary team of authors to advance the study of the religious dimensions of communication and the linguistic aspects of religion Contributions cover poetry iconicity and iconoclasm in religious language semiotic ideologies in traditional religions and in secularism and the role of materiality and writing in religious communication This volume will provoke new approaches to language and religion *Music in Ancient Israel/Palestine* Joachim Braun, 2002 This book contains the first study of the musical culture of ancient Israel Palestine based primarily on the archaeological record Noted musicologist Joachim Braun explores the music of the Holy Land region of the Middle East tracing its form and development from its beginning in the Stone Age to the fourth century A D This is not a study of music in the Bible or music in biblical times but a unique in depth investigation of the historical periods and cultures that influenced the music of the region and its people Braun combines significant archaeological findings musical

instruments terra cotta and metal figures etched stone illustrations mosaics with evidence drawn from written mainly biblical texts and anthropological sociological and linguistic sources The portrait Braun assembles of this past musical world is both fascinating and innovative suggesting a reconsideration of many views long accepted by tradition Enhanced with numerous illustrations and photographs that bring the archaeological evidence to life this exceptional work will be a valued resource for scholars students and general readers interested in the history of music biblical studies Jewish studies and the cultures of the ancient Near East

Anglo-Saxon England: Volume 32 Michael Lapidge, Malcolm Godden, Simon Keynes, 2004-07-05

Throughout the centuries of its existence Anglo Saxon society was highly if not widely literate it was a society the functioning of which depended very largely on the written word All the essays in this volume throw light on the literacy of Anglo Saxon England from the writs which were used as the instruments of government from the eleventh century onwards to the normative texts which regulated the lives of Benedictine monks and nuns to the runes stamped on an Anglo Saxon coin to the pseudorunes which deliver the coded message of a man to his lover in a well known Old English poem to the mysterious writing on an amulet which was apparently worn by a religious for a personal protection from the devil The usual comprehensive bibliography of the previous year's publications in all branches of Anglo Saxon studies rounds off the book

Contemporary Worship Music and Everyday Musical Lives Mark Porter, 2016-11-03

Whilst Contemporary Worship Music arose out of a desire to relate the music of the church to the music of everyday life this function can quickly be called into question by the diversity of musical lives present in contemporary society Mark Porter examines the relationship between individuals musical lives away from a Contemporary Worship Music environment and their diverse experiences of music within it presenting important insights into the complex and sometimes contradictory relationships between congregants musical lives within and outside of religious worship Through detailed ethnographic investigation Porter challenges common evangelical ideals of musical neutrality suggesting the importance of considering musical tastes and preferences through an ethical lens He employs cosmopolitanism as an interpretative framework for understanding the dynamics of diverse musical communities positioning it as a stronger alternative to common assimilationist and multiculturalist models

Missing More Than Music Danny Corbitt, 2008-11-04

We're missing out on hearing one another's songs on worship in our daily lives on passion in our praise on the dance of David on fellowship with Christians who disagree on sharing testimony of God's work in our assemblies on agreeing together and more In the Churches of Christ some begin to broaden their experience in praise wishing they could answer the questions of those who feel left behind Missing More than Music understands why we look at the same evidence and disagree There is hope for worship and unity We're missing more than music Let's have all that we've been missing together
