## **Ten Commitments To Being Mentally Fit:**

*Ten Commitments to Mental Fitness* Vicki Berkus C.E.D.S., Vicki Berkus, 2005 Ten Commitments to Mental Fitness can improve your mental fitness by helping you understand some of the same principles that can be learned in psychotherapy Experts have provided an abundance of information about how to attain physical fitness and most of us already know how to eat healthy foods exercise and stop smoking and drinking However many people do not know how to improve their mental fitness Ten Commitments to Mental Fitness provides answers and will empower readers Learn how to identify and keep behaviors that makes sense and let go of behaviors that do not These commitments are putting yourself first taking responsibility for your feelings setting priorities and being honest with yourself The author challenges you to ask some very direct questions that can only be answered by looking inward After assessing where you are in the present you can move forward with changes that will improve your life The Commitments also ask you to examine your relationships because good mental fitness includes cultivating relationships with people who honor interpersonal boundaries

*Ten Commitments Revisited* David Lindenmayer, Stephen Dovers, Steve Morton, 2014-09-25 What are the 10 key issues that must be addressed urgently to improve Australia s environment In this follow up to the highly successful book Ten Commitments Reshaping the Lucky Country s Environment Australia s leading environmental thinkers have written provocative chapters on what must be done to tackle Australia s environmental problems in terms of policies on ground actions and research Each chapter begins with a brief overview of the 10 key tasks that need to be addressed in a given field and then each issue is discussed in more detail Chapters are grouped into ecosystems sectors and cross cutting themes Topics include deserts rangelands temperate eucalypt woodlands tropical savanna landscapes urban settlements forestry management tropical and temperate marine ecosystems tropical rainforests alpine ecosystems freshwater ecosystems coasts islands soils fisheries agriculture mining grazing tourism industry and manufacturing protected areas Indigenous land and sea management climate change water biodiversity population human health fire energy and more Ten Commitments Revisited is a must read for politicians policy makers decision makers practitioners and others with an interest in Australia s environment

*Career Satisfaction From Within* , The Ten Commitments David Simon, 2010-01-01 We all know the Ten Commandments and unfortunately most of us try to use the philosophy of thou shalt not eat too much work too hard etc to command ourselves to make changes David Simon noted researcher and co founder with Deepak Chopra of The Chopra Center suggests a different path instead of dwelling on the negative embrace the positive and make commitments to live a better life In doing so we will transform our intentions losing weight spending more time with family etc into concrete actions that will make change happen This short precise book is not a lecture but a practical primer on thoughtful change There is a continuing hunger for Eastern philosophy and spirituality among Westerners finally one of the West s top experts who has been writing on lecturing teaching and practicing Eastern thought for over three decades has melded these principles with our core Western beliefs giving us a new

perspective on the basic way we live our lives Key Features Very warm and engaging tone excellent writing and numerous anecdotes make for a very compelling reading experience No new thought jargon just precise easily accessible advice This is a breakout book Helps us focus on the simplest answers much in the tradition of books like Don't Sweat the Small Stuff The ten step approach is familiar and comfortable Small inexpensive and beautifully packaged hardcover makes this a perfect gift or daily reader

**Ten Commitments** CSIRO Publishing, 2008 A book that is a must read for politicians policy makers practitioners and others with interests in Australia's environment

**Freedom From Religion in 30 Days: A REAL Wellness Approach to Critical Thinking, Exuberance and Personal Freedoms** Contributors include Annie Laurie Gaylor, Dan Barker, Gerrie Paino, Carol Ardell and 109 luminaries whose work is briefly cited to support or inform the material in the book, 2022 This book is a 30 Day plan for gaining more freedom from religion Freedom From Religion in 30 Days FFR is an antidote for anti democratic tendencies irrationality tribalism and intolerance It also offers relief from the mental constraints of dogmas creeds and superstitions Religion as promoted by Christian Nationalists obstructs and threatens our wellbeing and freedoms Christopher Hitchens best seller God Is Not Great How Religion Poisons Everything seems increasingly apt In FFR a case is made that religions poison not quite everything but more than enough to make it a mental health and quality of life hazard Whether you're a believer a devout freethinker or someone in between you will find each of the 30 days meets three standards 1 engaging 2 entertaining and 3 informative My goal is that FFR will hold your attention for a solid month and benefit you even longer WHY IT MATTERS FFR is about breaking away from the false claims and destructive effects of religion It's also about the positive nature of a REAL wellness way to think more critically live more exuberantly and enjoy more personal liberties A large number of freedoms are available for the taking once mental constraints of creeds and dogmas are eliminated This book promotes 1 Science based critical thinking using reason to guide important decisions Few decisions are as important as what you believe about religions especially the one in which you were indoctrinated 2 Happiness joy fun adventure meaning and purpose in life These are the key elements in the REAL wellness dimension of exuberance 3 Freedom to live the kind of life you desire This is the liberty dimension of REAL wellness THE 30 DAY FORMAT All 30 essays address some aspect of religion as it affects mental freedoms that shape values commitments beliefs behaviors and ultimately quality of life and wellbeing The format is inspired by Wilfred Funk's 30 Days to a More Powerful Vocabulary Within the 30 essays are four self evaluations focused upon reason exuberance personal liberties and management of stress Over 30 topics are covered in the essays though religion is a theme throughout The topics besides religion in general and Christianity in particular include politics heroic freethinkers mountebanks dubious and needed holidays ethics prayers play commandments parenting happiness sexuality doubt aging and death In addition to informing and entertaining FFR advances skills and awareness needed to slow the frightful trends that threaten our national interests THE PRISON OF BELIEF Although Christianity no longer has the power it wielded in the Middle Ages and thus no longer

engages in atrocities such as the Inquisition's auto de f, carnival-like public executions of heretics, it has another insidious liability: it imprisons the brains of adherents, thereby diminishing our democracy and crippling our personal freedoms and opportunities for exuberant lives. James Haught put it this way: When people accept supernatural claims of a religion, their lives are altered. They commit themselves to belief in miracles, prophecies, and similar magic, which orients their view of reality. It confines them, hindering their ability to consider other possibilities. This narrowed lifestyle can be called the prison of belief. This book will delight you if you're no longer willing to go along with pabulum babble in ritual blather such as "In God we trust," "so help me God," or "God bless America."
