End of the Road William Riggs, 2022-05-23 Since the earliest days of civilization streets have played an important role in shaping society but what is a street Is it a living ecosystem a public space a social space an economic space or a combination of these The focus on automotive travel over the past century has changed the role of streets in cities This has degraded the quality of urban life and contributed to public health issues This book offers a unique look at streets as locations that can evolve to support the economic social cultural and natural aspects of cities Using modern urban design examples it challenges readers to focus not only on the livability and travel benefits of roads but on how the power of streets can be harnessed In so doing it shapes more dynamic spaces for walking biking and living and aims to stimulate urban vitality and community regeneration encouraging policymakers and individuals to make changes in their own communities

Nachhaltige Lösungen für die Informationsgesellschaft Manfred Schrenk, 2006 **Resilient and Responsible Smart Cities** Hugo Rodrigues, Tomohiro Fukuda, Simon Elias Bibri, 2022-07-22 This book gathers current research studies which explore new technologies in architecture and urban practices which ensure the efficient management of cities infrastructures and provide new solutions to the complex complications that may result in the tackling of challenges

of population density traffic planning and city planning at the neighborhood scale or rather the scale of buildings and everyday life It offers a path towards city resilience and sustainable infrastructure with the aim of meeting the demands of mega cities The primary audience of this book will be academics and professionals from the fields of architecture urban planning civil engineering computer sciences and mathematics The book will aid them in their contributions to the implementation of sustainable development goals *Marrying Market Timing with Human-Centered Urban Design: How Investors and Municipalities Can Better Realize Transit Oriented Development* Jared Katseff,2015-06-03 My thesis sought to better understand the interaction between transit investments and property values Specifically I sought to understand when in the investment cycle residential properties went from their pre to post transit value and what urban design impacts could help amplify this change For each of the corridors studied market sales transaction data was collected for all residential properties that were within a half mile walkshed of each new station From this data we calculated growth rate premiums that existed for the property values in the transit area walksheds versus a control as well as how these premiums evolved over time Surveys were also conducted in each of the corridors to document and quantify the existence of various characteristics associated with walkable human centered urban design This data was applied to the market sales data in a multiple regression analysis to determine which urban design features were most associated with higher property value growth rates

The High Cost of Free Parking Donald Shoup,2017-10-20 One of the American Planning Association's most popular and influential books is finally in paperback with a new preface from the author on how thinking about parking has changed since this book was first published In this no holds barred treatise Donald Shoup argues that free parking has contributed to auto dependence rapid urban sprawl extravagant energy use and a host of other problems Planners mandate free parking to alleviate congestion but end up distorting transportation choices debasing urban design damaging the economy and degrading the environment Ubiquitous free parking helps explain why our cities sprawl on a scale fit more for cars than for people and why American motor vehicles now consume one eighth of the world's total oil production But it doesn't have to be this way Shoup proposes new ways for cities to regulate parking namely charge fair market prices for curb parking use the resulting revenue to pay for services in the neighborhoods that generate it and remove zoning requirements for off street parking Such measures according to the Yale trained economist and UCLA planning professor will make parking easier and driving less necessary Join the swelling ranks of Shoupistas by picking up this book today You'll never look at a parking spot the same way again **Ten Principles for Smart Growth on the Suburban Fringe** Mary Beth Corrigan,2004
