Ten Years On In Northern Ireland The Legal Control Of Political Violence:

Bloody Sunday and the Rule of Law in Northern Ireland D. Walsh, 2000-03-01 Drawing on original research into explosive evidence which had been concealed for twenty five years this book offers a devastating critique of the official Widgery Inquiry into the massacre of innocent and unarmed civilians by British soldiers on Bloody Sunday It exposes the Inquiry as a gross denial of justice and the rule of law Expert analysis of the subordination of law to security policy in Northern Ireland reveals that the Bloody Sunday experience is an integral part of a sustained pattern Belated prospects for a restoration of justice and the rule of law are found in the Good Friday Peace Agreement and the unprecedented establishment of a second Tribunal of Inquiry into Bloody Sunday Palgrave Dictionary of Public Order Policing, Protest and Political Violence P. Joyce, Neil Wain, 2014-11-04 Protest and political violence are concerns of global importance in the twenty first century This dictionary brings together in one comprehensive volume a number of key issues relating to the conduct of protest and political violence and the response of the state and police to such activities Human Rights and Conflict Resolution in Context Eileen F. Babbitt, Ellen L. Lutz, 2009-09-09 Preventing sweeping human rights violations or wars and rebuilding societies in their aftermath require an approach encompassing the perspectives of both human rights advocates and practitioners of conflict resolution While these two groups work to achieve many of the same goals notably to end violence and loss of life they often make different assumptions apply different methods and operate under different values and institutional constraints As a result they may adopt conflicting or even mutually exclusive approaches to the same problem Eileen F Babbitt and Ellen L Lutz have collected groundbreaking essays exploring the relationship between human rights and conflict resolution Employing a case study approach the contributing authors examine three areas of conflict Sierra Leone Colombia and Northern Ireland from the perspectives of participants in both the peace making and human rights efforts in each country By spotlighting the role of activists and reflecting on what was learned in these cases this volume seeks to push scholars and practitioners of both conflict resolution and human rights to think more creatively about the intersection of these two fields Discourses and Practices of Terrorism Bob Brecher, Mark Devenney, Aaron Winter, 2010-02-25 This interdisciplinary book investigates the consequences of the language of terror for our lives in democratic societies The approach of this book is in direct contrast with those that either view terrorism simplistically as a clear reality threatening democratic society and thus requiring certain sorts of response or argue equally simplistically that the invocation of terror is merely the ideological veil for continued capitalist exploitation While closer in spirit to the second of these this work does not simply dismiss the discourse on terror but rather investigates the consequences of this discourse for the organisation of life in democratic societies In interrogating the discourse of terror from a variety of viewpoints this interdisciplinary text builds upon the understanding of the importance of the language of terror from a new perspective the interconnections between discourses of terror the material realities they at once reflect and help produce and the specificities of particular historical

circumstances In offering an integrated approach of this sort and founded on a base of applied philosophy broadly conceived the contributors offer a new contribution to both public and academic debate and at the same time initiate a series of further interventions in Critical Terrorism Studies This book will be of interest to students of critical terrorism studies terrorism studies security studies philosophy and discourse theory Bob Brecher is Director of the Centre for Applied Philosophy Politics Ethics at Brighton University He has published widely in moral political and applied philosophy and the politics of higher education Mark Devenney is Academic Programme Leader in Humanities at the University of Brighton He has published in the areas of critical theory post Marxism and post Colonial politics Aaron Winter is Lecturer in Sociology at the University of Abertay Dundee His research focuses on terrorism and the concept of extremism whiteness masculinity and violence and the extreme right organised racism and the religious right in the United States

Constructing Victimhood Cheryl Lawther, 2024-11-18 Constructing Victimhood seeks to go beyond innocence and guilt to expand the criminological victimological and transitional justice image of who we see as victims what we hear as experiences of victimisation and who makes these determinations The book argues that the construction reproduction and politicisation of victimhood is structured not only by notions of innocence and guilt and the existence of complex victims but by larger questions concerning the existence of complex hierarchies of victimhood that supersede simplistic notions of good and bad victims Lawther also considers the exercise of voice the role of silence and the silencing of certain variants of victimhood in gender based crimes for example the politicisation of victims groups and the impact of unresolved legacies of violent conflict The author argues that in the failure to cast the transitional justice gaze more widely it is not only the voices in the cracks that will be overlooked but entire experiences of victimhood and victimisation If transitional justice is to live up to its claims of being victim centred widening its conceptual and practical boundaries to recognise the multiple and overlapping variables that construct and reproduce victimhood is essential Pursuing this line of enquiry Constructing Victimhood aims to change our understanding of victimhood in post conflict and transitional contexts

The Crowned Harp Graham Ellison, Jim Smyth, 2000-05-20 This book is a detailed analysis of policing in Northern Ireland Tracing its history from 1922 Ellison and Smyth portray the Royal Ulster Constabulary RUC as an organisation burdened by its past as a colonial police force They analyse its perceived close relationship with unionism and why for many nationalists the RUC embodied the problem of the legitimacy of Northern Ireland arguing that decisions made on the organisation composition and ideology of policing in the early years of the state had consequences which went beyond the everyday practice of policing Examining the reorganisations of the RUC in the 1970s and 1980s Ellison and Smyth focus on the various structural legal and ideological components the professionalisation of the force and the development of a

coherent if contradictory ideology **The Media and the Military** P. Young, P. Jesser, 1997-10-13 The first comprehensive study of the contentious issue of the public's right to know in time of war or limited conflict The book traces the uneasy relations between the military and a generally unprepared and gullible media from the Crimea to the present day It shows how the advent of nuclear warfare has outlawed the nationalistic wars of survival of the past and freed the citizen from his age old obligations in time of war able to make up his or her own mind on the merits of the situation It is here that the battle lies in the struggle for public opinion as a necessary precursor to war This book details how the military discovered the secret of media and public manipulation in the Falklands tested it in Grenada and refined it in Panama before deploying it in all its glory during the Gulf This book is essential reading for every soldier and journalist or any student of military history as it points the way to the future

Strategic Visions for Human Rights Geoff Gilbert, Françoise Hampson, Clara Sandoval, 2010-09-13 Strategic Visions for Human Rights takes a multi disciplinary approach to future directions for human rights It looks beyond what international human rights treaties have so far established and considers the context in which rights in the twenty first century might develop to meet needs The book examines how international law might be utilized to protect groups rather than just individual members of the group and it also calls into question the liberal positivist approach to international law that provides the framework for human rights norms The book is written and published in honour of Professor Kevin Boyle It celebrates his long career in human rights law both as an academic and a

practising barrister Professor Boyle has taken numerous cases on human rights issues to the European Court of Human Rights in Strasbourg and has long been involved in human rights aspects of the peace process in Northern Ireland. He has published widely on human rights issues focusing on freedom of expression and religion and non discrimination. The contributors to this volume are well known academics in the field of human rights and include Francesca Klug, Conor Gearty, David Beetham and Asbjorn Eide. Amongst some of the issues addressed in the book are the future of the European Court of Human Rights, the role of academics in engendering transition to post conflict democratic states and human rights and religious pluralism.

Out of the Ashes Robert White, 2017-04-25 *Out of the Ashes* is the definitive history of the Provisional Irish Republican movement from its formation at the outset of the modern Troubles up to and after its official disarmament in 2005. Robert White, a prolific observer of IRA and Sinn Féin activities, has amassed an incomparable body of interview material from leading members over a thirty year period. In this defining study, the interviewees provide extraordinary insights into the complex motivations that provoked their support for armed struggle, their eventual reform, and the mind set of today's dissidents who refuse to lay down their arms. Those interviewed stem from every stage of the Provisionals' history from founding figures such as Seán Mac Stíofáin, Ruairí Ó Brádaigh and Joe Cahill to the new generation that replaced them: Martin McGuinness, Danny Morrison and Brendan Hughes among others. *Out of the Ashes* is a pioneering history that breaks new ground in defining how the Provisionals operated, caused worldwide condemnation and were transformed by constitutional politics.

Terrorists' Target Selection C. Drake, 1998-08-26 The author examines the factors which influence terrorists' target selection. In particular, he looks at the influence of the ideologies, strategies and tactics of terrorist groups and describes how these are restricted by the terrorists' resources, by protective and anti terrorist measures by the society within which the terrorists operate and by the nature of the terrorists and their supporters. He concludes that terrorists' target selection is often both explicable and logical.

Violence, Law and the Impossibility of Transitional Justice Catherine Turner, 2016-07-07 The field of transitional justice has expanded rapidly since the term first emerged in the late 1990s. Its intellectual development has, however, tended to follow practice rather than drive it. Addressing this gap, *Violence, Law and the Impossibility of Transitional Justice* pursues a comprehensive theoretical inquiry into the foundation and evolution of transitional justice. Presenting a detailed deconstruction of the role of law in transition, the book explores the reasons for resistance to transitional justice. It explores the ways in which law itself is complicit in perpetuating conflict and asks whether a narrow vision of transitional justice underpinned by a strictly normative or doctrinal concept of law can undermine the promise of justice. Drawing on case material as well as on perspectives from a range of disciplines including law, political science, anthropology and philosophy, this book will be of considerable interest to those concerned with the theory and practice of transitional justice.

Informers Roger Billingsley, Teresa Nemitz, Philip Bean, 2013-01-11 The police

rely heavily on paid and unpaid informers without them clear up rates would plummet and many crimes would remain undetected Yet little is known about the informer system and how it works for example who are these informers how are they recruited how are they handled who handles them what sort of information do they provide Recent high profile cases have drawn attention to the use of informers there has been a growing debate about the subject and many feel that stricter controls are needed but how is this to be achieved without undermining the effectiveness of the system This is the first book of its kind on informers in Britain providing an invaluable source of information and analysis from key authorities in the field
