Tennessee Towns From Adams To Yorkville:

Tennessee Towns Tom Siler, 1985 *The First American Frontier* Wilma A. Dunaway, 2000-11-09 In *The First American Frontier* Wilma Dunaway challenges many assumptions about the development of preindustrial Southern Appalachia's society and economy Drawing on data from 215 counties in nine states from 1700 to 1860 she argues that capitalist exchange and production came to the region much earlier than has been previously thought Her innovative book is the first regional history of antebellum Southern Appalachia and the first study to apply world systems theory to the development of the American frontier Dunaway demonstrates that Europeans established significant trade relations with Native Americans in the southern mountains and thereby incorporated the region into the world economy as early as the seventeenth century In addition to the much studied fur trade she explores various other forces of change including government policy absentee speculation in the region's natural resources the emergence of towns and the influence of local elites Contrary to the myth of a homogeneous society composed mainly of subsistence homesteaders Dunaway finds that many Appalachian landowners generated market surpluses by exploiting a large landless labor force including slaves In delineating these complexities of economy and labor in the region Dunaway provides a perceptive critique of Appalachian exceptionalism and development **Bristol to Knoxville**

Elena Irish Zimmerman, 1996-10-01 *Bristol to Knoxville A Postcard Tour* takes us on a journey back to a simpler time 1939 and invites us to tour the towns of East Tennessee by means of the picture postcard The 1930s were fascinating years in America It was a time of struggle and yet of hope of hardship and yet of optimism America fought her way through the Depression to emerge the better for it and those who came through were determined to live the American dream In 1939 as in previous decades the postcard was a supremely popular means of fast and easy communication Postcard companies sent their photographers all over America to cities and crossroads alike These photographers captured on film scenes that would prove popular commercially but in doing so they were unknowingly creating a tremendous archive of historical images that are of great value today for the insights they offer into the way life was lived in the early twentieth century **Slavery in**

the American Mountain South Wilma A. Dunaway, 2003 Wilma Dunaway breaks new ground by focusing on slave experiences on small plantations in the Upper South She argues that a region was not buffered from the political economic and social impacts of enslavement simply because it was characterized by low black population density and small slaveholdings By drawing on a massive statistical data base derived from antebellum census manuscripts and county tax records of 215 counties in nine states on a vast array slaveholder manuscripts and on regional slave narratives she pinpoints several indicators that distinguished Mountain South enslavement from the Lower South *Native American Placenames of the United States* William Bright, 2004 This volume combines historical research and linguistic fieldwork with native speakers from across the United States to present the first comprehensive up to date scholarly dictionary of American placenames derived from native languages Linguist William Bright assembled a team of twelve editorial consultants experts in Native

American languages and many other native contributors to prepare this lexicon of eleven thousand placenames along with their etymologies New data from leading scholars make this volume an invaluable reference for students of American Indian culture folklore and local histories Bright's introduction explains his methodology and the contents of each entry This comprehensive alphabetical lexicon preserves native language as it details the history and culture found in American indian placenames
