Wesley Smith, Kristine Kathryn Rusch, 2000 2017 BACK FROM THE SUN For aeons Earth has been ravaged by so called natural disasters Now we know the primary cause overharvesting of our limited resources not by humans but by the residents of our solar system's tenth planet Since before the birth of humanity every two thousand years this dark planet has plundered our world But in 2017 Earth fought back Now thousands of aliens face starvation To survive they must harvest Earth when their orbit brings them back from behind the sun But the humans are not waiting for Earth to become as parched and barren as Mars Every nuclear weapon has been aimed at the Tenth Planet Their ultimate goal to blow the Tenth Planet to oblivion In part two of the Tenth Planet saga cutting edge science and high drama combine in an adventure that questions humanity's history our place in the universe and our very right to exist *The Tenth Planet: Revelations from the Astrological Eris* Henry Seltzer, 2015-04-23 It's not often that a professional is on the cutting edge of his field but Henry Seltzer is no stranger to breaking new ground in astrology In this latest contribution he graces us with pioneering insights on Eris a dwarf planet that he proves deserves consideration The pages are filled with well researched chart examples and analysis supporting his archetypal views on how Eris functions in a horoscope This book deserves space in your mind and on your shelf Seltzer's contributions on Eris is a definite enhancement to astrological theory Maria DeSimone www.insightfulastrology.com In this cogent study of Eris Henry Seltzer is doing bold groundbreaking work on the astrological frontier I've marveled at the slowness of the astrological community to embrace this new planet despite its being slightly bigger than Pluto Perhaps that is because these new worlds always represent new emerging possibilities in consciousness and thus tend to frighten people Thank you Henry for not being afraid Steven Forrest author of *The Inner Sky* Mr Seltzer's book on Eris offers groundbreaking research into the field of astrology His description of Eris in each of the houses is eye opening and offers fresh insights into an area of life in which we need to develop the feminine warrior aspect of ourselves as part of our life purpose Jan Spiller author of *Cosmic Love* [The Tenth Planet](#) Edmund Cooper, 1973 [Tenth Planet](#) Henry Seltzer, 2015-08-01 It's not often that a professional is on the cutting edge of his field but Henry Seltzer is no stranger to breaking new ground in astrology In this latest contribution he graces us with pioneering insights on Eris a dwarf planet that he proves deserves consideration The pages are filled with well researched chart examples and analysis supporting his archetypal views on how Eris functions in a horoscope This book deserves space in your mind and on your shelf Seltzer's contributions on Eris is a definite enhancement to astrological theory [DESPERATION](#) Duane K. Lacoursiere, 2010-04-07 What happens when an inhabited planet is about to become uninhabitable Do the inhabitants just accept their fate and die with dignity Or do they abandon their planet like rats leaving a sinking ship Common sense would dictate that a slim chance at survival is better by far than no chance at all One only has to look at our own medical community to see how far they will go to buy a cancer patient just a few more months of life Most times the quality of that life is not even an issue It does not matter how painful or wretched that life may be as long as there is more of it Thus when the time came the Colony Ship

Desperation was launched With only sublight capability and no clear destination it headed out into the great unknown with the philosophy that anywhere is better than here This book is made up of excerpts from the Captains log of the Colony Ship Desperation It covers a span of almost 1700 years from the time of its launch to the present when they stumble across a secret that has evaded mankind ever since Noah sailed his Ark

Our Occulted History Jim Marrs,2013-02-12 The author of Alien Agenda illustrates how human civilization may have originated with non humans who visited earth eons ago and may still be here For years we ve been taught that human progress has been a long slow climb from the primordial ooze to hunter gatherers to empires But what if that s only part of the story Bestselling author and legendary conspiracy researcher Jim Marrs who has investigated the recent financial crisis the JFK assassination and the national socialist takeover of America now takes on his biggest subject the history of mankind Our Occulted History overturns conventional knowledge and beliefs presenting compelling evidence that the earth once hosted prehistoric civilizations using technologies that very well may have surpassed our own Sound unbelievable Just a few hundred years ago so was the concept that the earth revolved around the sun Marrs sifts through the historical scientific and cultural record showing how numerous ancient texts and tablets tell of visitors from the stars colonizing the earth From the flying vimanas of the Hindu Vedic literature and the flying shields reported by the Romans to the mysterious airships of the 1800s and the UFOs of today he argues that someone other than us is still present on this planet But are these visitors simply observers or do they play a much more active and controlling role Jim Marrs raises this shocking question and more in the provocative and persuasive Our Occulted History The truth is out there and in here

Of Heaven and Earth Neil Freer,1996 Presents information on Sitchins theories about the origins of mankind and the intervention of intelligence from beyond the Earth He and the other contributors offer a scholarly approach to the ancient astronaut theory Contains the complete transcript of the first Sitchin Studies Day held in Denver Colorado on Oct 6 1996 Following Sitchins detailed keynote address are six other prominent speakers whose work he has influenced They include philosopher Neil Freer UFO expert J Antonio Huneus clergyman Father Charles Moore author V Susan Ferguson and two university professors Madeleine Briskin and Marlene Evans They agree that certain myths were actual events instead of figments of imaginations Sitchins work comprises the early part of a new paradigmone that is already beginning to shake the very foundations of religion archaeology and our society in general

system most of us grew up with included nine planets with Mercury closest to the sun and Pluto at the outer edge. Then in 2005 astronomer Mike Brown made the discovery of a lifetime: a tenth planet, Eris, slightly bigger than Pluto. But instead of adding one more planet to our solar system, Brown's find ignited a firestorm of controversy that culminated in the demotion of Pluto from real planet to the newly coined category of dwarf planet. Suddenly Brown was receiving hate mail from schoolchildren and being bombarded by TV reporters all because of the discovery he had spent years searching for and a lifetime dreaming about. A heartfelt and personal journey filled with both humor and drama, *How I Killed Pluto and Why It Had It Coming* is the book for anyone young or old who has ever imagined exploring the universe and who among us hasn't

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals.
