Max Weber, Democracy and Modernization Ralph Schroeder, 2016-07-27 These essays bring Weber's sociology to bear on the current transformation of the political landscape. After the collapse of communism, many states are faced with the challenges of democratization; they need to establish their legitimacy in an uncertain economic climate and within a new geopolitical order. The essays in this volume develop Weberian concepts and apply his comparative historical method to deepen our understanding of these problems. They cover a wide range of examples from the United States to Western and Eastern Europe and from Russia and Japan to the Islamic states.

The Anthem Companion to Alexis de Tocqueville Daniel Gordon, 2019-05-30 The Anthem Companion to Alexis de Tocqueville contains original interpretations of Tocqueville's major writings on democracy and revolution as well as his lesser-known writings on colonies, prisons, and minorities. The Introduction by Daniel Gordon discusses how Tocqueville was canonized during the Cold War and the need to reassess the place of Tocqueville's voice in the conversation of post-Marxist social theory. Each chapter that follows compares Tocqueville's ideas on a given subject with those of other major social theorists, including Bourdieu, Dahl, Du Bois, Foucault, Lévi-Strauss, and Marx. This comprehensive volume is based on the idea that Tocqueville was not merely a founder or precursor whose ideas have been absorbed into modern social science. The broad questions that Tocqueville raised, his comparative vision, and his unique vocabulary and style can inspire deeper thinking in the social sciences today.

Vietnam's Dissidents Susann Pham, 2023-09-23 This book is the first ethnography on Vietnam's contemporary dissident movement. As a country that became known and is still remembered as one of the last remnants of Communist revolutions, Vietnam has managed to lift itself from one of the poorest, war-torn post-colonies to one of the fastest-growing market economies in Southeast Asia. Yet while holding on to the legacy of a communist-led liberation movement, the present-day Communist Party of Vietnam (CPV) finds itself subject to political challenges from below. In recent years, dissident voices critical of the party-state's malgovernance over social, economic, and environmental issues have mushroomed across classes, generations, and provinces. Based on extensive ethnographic data, this book explores distinct political practices and political ideas of Vietnam's dissidents. It examines different anti-capitalist and anti-authoritarian practices of democracy, labour, peasant, and religious activists and reveals that anti-capitalist and anti-authoritarian practices are at times motivated by nationalist, anti-communist, and statist ideas and ideologies. Understanding this dissonance between political practices and political ideas within the context of global capitalism and coloniality lies at the heart of this book.

Translation as Experimentalism Tong King Lee, 2022-07-28 This Element argues for a perspective on literary translation based around the idea of ludification using concrete poetry as a test case Unlike rational scientific models of translating ludic translation downplays the linear transmission of meaning from one language into another It foregrounds instead the open ended ergodic nature of translation where the translator engages with and responds to an original work in an experimental and experiential manner Focusing on memes rather than signs ludic translation challenges us to adopt an oblique lens on literary texts and deploy verbal as well as nonverbal resources to add value to an original work Such an approach is especially amenable to negotiating apparently untranslatable writing like concrete poems across languages modes and media This Element questions assumptions about translatability and opens the discursive space of literary writing to transgressive articulation and multimodal performance This title is also available as Open Access on Cambridge Core

Person-Centered Politics Eamonn O'Higgins, 2024-04-09 What accounts for the widespread disillusionment with politics Person centered Politics suggests that politics today through its structures processes and institutions tends to presuppose and to impose a certain caricature of the human person that inhibits and frustrates a real sense of personal participation in an authentic common good of politics and society In 12 chapters that touch on fundamental themes of political philosophy Person centered Politics proposes the social and transcendent dimensions of personal existence and their application to the renewal of politics today

The themes explore the commonly accepted assumptions of politics today and how a renewed understanding of the person can invigorate political discourse and action In Person centered Politics the author is in continuous dialogue with some of the major contemporary philosophers and thinkers such as Eric Voegelin David Walsh Robert Sokolowski Vaclav Havel Pierre Manent Peter Simpson and Joseph Ratzinger Benedict XVI Detailed footnotes in each chapter provide reference to further sources of enlightenment and research Person centered Politics proposes an outline for a renewed vision of politics that is centered on the truth of human existence and not a politics that distorts and suffocates the human spirit because in the words of E Voegelin the right order of the soul through philosophy furnishes the standard for the right order of society and not the other way round
