Emperor Qin's Terra Cotta Army Michael Capek, 2008-01-01 A dead emperor guarded by his army for 2 000 years One day in 1974 a group of farmers in rural China found a life size clay statue of a man's head buried deep in a field When government archaeologists inspected the area they discovered that beneath the ground were more than eight thousand life size clay soldiers each one with a unique face In nearby chambers they unearthed clay horses carefully preserved swords bronze statues and other astonishing things Where did these treasures come from And why were they buried Slowly the story revealed itself It centered around Qin Shi Huangdi the first emperor of China who died in 210 B C For forty years leading up to his death thousands of artists from across China had sculpted an enormous city where he would be buried guarded and protected by thousands of clay soldiers This city remained hidden for over two thousand years This important archaeological find offers amazing insight into the civilization of ancient China

*Terra Cotta Warriors* Jane Portal, 2008 The terra cotta army of Qin Shihuangdi the First Emperor of China 221-210 BC is one of the most spectacular finds in world archaeology It was discovered by chance in 1974 a garrison in battle ready formation spread across a number of pits Here were life sized warriors made over two thousand years ago from fired clay cavalry archers and infantry lowly foot soldiers and high ranking officers figures of varying ages with different hairstyles and facial expressions and seemingly representing every racial group in China more than 6 000 in all But who was this powerful Emperor of the Qin Dynasty who needed such an army to guard him in the afterlife How were the figures made

How could they have been manufactured on such a vast scale Beautifully illustrated and based on the latest research this little book provides a perfect introduction to what has often been described as the eighth Wonder of the World BOOK JACKET

*The Terra Cotta Army of Emperor Qin* Caroline Evensen Lazo,1993 In 1974 while digging a well in a field near the Chinese city of Xian two farmers unearthed a life size figure of an ancient warrior Further digging revealed over 7 500 terra cotta warriors each one individually crafted and posed Some stood at attention holding spears others knelt with bows and arrows and still others were on horseback Remarkably preserved and intact this silent army of clay warriors has been on guard for over 2 000 years What they were guarding was a tomb the tomb of China s first emperor Emperor Qin The story of who Qin was and how and why he had this ghostly army created to guard his burial place has slowly unfolded as archaeologists and historians have excavated and studied the terra cotta figures Now come behind the scenes and discover the secrets that have long been guarded by the terra cotta army of Emperor Qin **Secrets of the Terracotta Army** Michael Capek,2014-07-01 Describes the archeological wonders of the Terracotta Army including discovery artifacts ancient peoples and preservation **Terracotta Warriors** Guolong Lai,2011 This catalog sets the Terracotta warriors in a wider context by examining art of the Qin state in the period that led to the unification if China 兵马俑 图,2000 The discovery of the terracotta warriors of Emperor Qin Shi Huang east of Xi an capital of Shaanxi Province is considered the most significant event in Chinese archaeology in the 20th century The terracotta army has been hailed as the Eighth Wonder of the World This album presents some 80 photographs and illustrations of the extraordinary underground army marshalled over 2000 years ago to guard the mausoleum of Emperor Qin Shi Huang China s first unifier **The Terra Cotta Army** John Man,2008-04-22 The incredible story of the discovery of China s greatest archaeological treasure and the history behind the mysterious terra cotta warriors and the emperor who made them *The Terracotta Army* Charles River Editors,2017-01-11 Includes pictures Includes ancient accounts of the emperor s reign and description of his tomb Describes how the Terracotta Army was designed and created Includes a bibliography for further reading The terracotta army was a one off creation original in both concept and execution unmentioned in any source no sooner buried than destroyed and forgotten Why so realistic Why this many Why full size Why clay The initial inspiration was the need to duplicate a new force of which the main element was infantry conscripted from the emperor s newly acquired masses of peasants and protected not with custom made armor but with scales of leather and simple standardized weapons It was the combination of archers infantry and charioteers this particular balance between officers and men that had enabled the First Emperor to unify the nation John Man *The Terracotta Army China s First Emperor and the Birth of a Nation* China has always fascinated outsiders much in the same way that distant light fascinates someone looking down a dark road It is both familiar and mysterious ancient and new and fully understanding it seems to always remain just out of reach From the Great Wall to the ancient teachings of Confucius China s natural and man made wonders have been topics of interest among Westerners since the Middle Ages and

the pursuit of trade routes both by land and sea amazing Marco Polo and 19th century British expeditions in similar ways despite the passage of several centuries between them For these reasons it comes as little surprise that people across the world were excited when it was revealed in 1974 that archaeologists had uncovered a new and amazing find an underground army consisting of thousands of clay soldiers still standing at their posts despite being over 2 000 years old In addition to the remarkable feats of craftsmanship and the almost unimaginable size and scale of the Terracotta Army the sculpted statues seemed to bear testimony of something that modern people could not quite wrap their minds around representing a time when China was born almost 200 years before Christ The hope for many was that this remarkable army could reveal the secrets of China's first emperor Qin Shi Huang a man who united seven warring tribes into one of the most powerful nations on earth Even as research continues 40 years after the initial find some of the facts about the Terracotta Army are staggering It's estimated that the army consists of 8 000 soldiers 130 chariots and hundreds of horses and cavalry all of which were sculpted on a mass scale by various factories but were subsequently molded to feature their own unique appearances separate of one another As if that wasn't enough there are also terracotta sculptures of acrobats servants and musicians and the sculptures were painted though most of the paint has faded away over time This impressive horde of funerary art was buried with Qin Shi Huang to serve him in the afterlife much the same way Egyptian pyramids were constructed for pharaohs While the sculptures comprising the Terracotta Army are impressive as a work of art they have indeed proven to be an invaluable historical source as well Thanks to collections of weapons buried with the sculptures as well as the shapes and sizes of the various military equipment historians can get a sense of what Qin Shi Huang had at his disposal when he fought battles and the Terracotta Army itself is even organized based on military rank allowing historians a chance to understand ancient Chinese military formations The Terracotta Army The History of Ancient China's Famous Terracotta Warriors and Horses chronicles the history of the Chinese emperor who commissioned them and a description of the famous funerary art Along with pictures of important people places and events you will learn about the Terracotta Army like never before

**The Tomb of China's First Emperor** Enzo George, 2017-07-15 The tomb of China's First Emperor Qin Shi Huangdi is guarded by an army of more than 6 000 life size terracotta warriors Doubtless many untold treasures and secrets are sealed in the unopened burial chamber and perhaps a deadly river of mercury too Young archaeologists will delight in learning about this famous ruler and his quest for eternal life They'll find out how the latest technology is being used to reveal more about the tomb's contents while preserving its artifacts Beautifully vivid photographs complement the intriguing text while a timeline aids in summarizing key historical details

**Terra-Cotta Army, The** Emily Rose Oachs, 2019-08-01 China's famous terracotta army has at least 8 000 soldiers More than 2 000 years ago this army was created to protect the tomb of the ancient Chinese emperor Qin Shihuang Today the army has immense value to archaeologists and historians around the world This high interest text uses maps graphs profiles of recent discoveries and other features to introduce readers to the army's

thrilling history     Wonders from the Earth Tianchou Fu,1989     The Qin Terracotta Army Wenli Zhang,1996 A fascinating study of this amazing archaeological discovery     **The Terracotta Army** Gary Geddes,1984 In 1985 Gary Geddes won the Commonwealth Poetry Prize Americas Region for *The Terracotta Army* a brilliant sequence of his Chinese sonnets The nine couplet poems were inspired by his 1981 visit to the archaeological site in China where more than 8 000 individually sculpted life sized soldiers and horses were interred in the third century to accompany Emperor Ch in Shi Huang Di into the afterlife In this ideologically charged volume Geddes gives voice to a few soldiers who engage in myriad debates about the abuse of power the yin yang dance of narrative and silence and the sanctity of the idiosyncratic self in the face of conformity This new edition of *The Terracotta Army* published to coincide with the Canadian tour of *The Warrior Emperor* and China's Terracotta Army opening at the ROM in late June 2010 pairs Geddes poems with photographs of the terracotta soldiers     *The Emperor's Silent Army* Jane O'Connor,2002-04-15 Lintong County People's Republic of China March 1974 Three farmers are digging a well when suddenly their shovels hit something hard It is a clay head of a man who stares back at them open eyed and amazingly real looking The farmers have never seen anything like it neither have the archeologists who arrive and being to uncover more and more pottery men first dozens then hundreds and eventually thousands Buried for more than 2 200 years they are soldiers life size as well as life like and they stand at attention as if waiting for the command to charge into battle The only thing missing is their weapons and soon those are found too thousands of real bronze swords daggers and arrowheads still so sharp they can split a hair Now after almost thirty years of ongoing excavation a buried army of 7 500 terracotta soldiers and horses has emerged And this site that three farmers accidentally stumbled upon ranks along with the Great Pyramids in Egypt as one of the true wonders of the ancient world *The Emperor's Silent Army* features more than forty full color photos that showcase the terracotta troops A vivid and engaging text tells all about the army as well as the extraordinary story of the men who commanded its creation the ruthless and tyrannical first emperor of China     **Die Terrakottaarmee des ersten chinesischen Kaisers Qin Shihuang** Catharina Blänsdorf,Erwin Emmerling,2001     **The Eternal Army** Roberto Ciarla,2011 A vast army of over 7000 terracotta statues of soldiers surrounds the tomb of the first emperor of the Qin dynasty in the Shannxi province in northwestern China This book answers many of the questions that have intrigued travelers archeologists and students of Chinese culture since the site was discovered in 1974
