Terra Oculata Planetary Jla:

Planetary/JLA Warren Ellis, Jerry Ordway, 2002 Breaking the Frames Marc Singer, 2019-01-09 Comics studies has reached a crossroads Graphic novels have never received more attention and legitimation from scholars but new canons and new critical discourses have created tensions within a field built on the populist rhetoric of cultural studies As a result comics studies has begun to cleave into distinct camps based primarily in cultural or literary studies that attempt to dictate the boundaries of the discipline or else resist disciplinarity itself The consequence is a growing disconnect in the ways that comics scholars talk to each other or more frequently do not talk to each other or even acknowledge each other's work

Breaking the Frames Populism and Prestige in Comics Studies surveys the current state of comics scholarship interrogating its dominant schools questioning their mutual estrangement and challenging their propensity to champion the comics they study Marc Singer advocates for greater disciplinary diversity and methodological rigor in comics studies making the case for a field that can embrace more critical and oppositional perspectives Working through extended readings of some of the most acclaimed comics creators including Marjane Satrapi Alan Moore Kyle Baker and Chris Ware Singer demonstrates how comics studies can break out of the celebratory frameworks and restrictive canons that currently define the field to produce new scholarship that expands our understanding of comics and their critics Planetary/JLA (2010-) #1 Warren Ellis, 2010-07-07 They are archaeologists of the impossible tracking down evidence of a vast array of super human activity that the world never knew of They are Planetary better known to you as Clark Kent Bruce Wayne and Diana Prince The mystery team of the WildStorm Universe collides with the World's Greatest Heroes of the DC Universe in the most unexpected way in this incredible story **The Superhero Book** Gina Misiroglu, 2012-04-01 The ultimate compendium to everyone's favorite participants in the eternal battle between good and evil Profiles of more than 1 000 mythic superheroes icons and their place in popular culture Superhuman strength Virtual invulnerability Motivated to defend the world from criminals and madmen Possessing a secret identity And they even have fashion sense they look great in long underwear and catsuits These are the traits that define the quintessential superhero Their appeal and media presence has never been greater but what makes them tick their strengths weaknesses secret identities and arch enemies The Superhero Book The Ultimate Encyclopedia of Comic Book Icons and Hollywood Heroes is the comprehensive guide to all those characters whose impossible feats have graced the pages of comic books for the past one hundred years From the Golden and Silver Ages to the Bronze and Modern Ages the best loved and most historically significant superheroes mainstream and counterculture famous and forgotten best and worst are all here The Avengers Batman and Robin Captain America Superman Wonder Woman Captain Marvel Spider Man The Incredibles The Green Lantern Iron Man Catwoman Wolverine Aquaman Hellboy Elektra Spawn The Punisher Teen Titans The Justice League The Fantastic Four and hundreds of others Unique in bringing together characters from Marvel DC and Dark Horse as well as smaller independent houses The Superhero Book covers the
