Terra Pacifica:

Terra Pacifica Paul W. Hirt, 1998 Ten widely recognized historians from the United States and Canada present thought provoking insights about society culture and change in the great resource laden Northwest Essays examine early Spanish exploration of the Northern coast the long term relationship of a fragile Canadian union with its powerful southern neighbor regional novelists and literature important aspects of black and white immigration the iconography of nuclear energy and the continuing interaction of the region s many Indian reservations with the dominant society s economic conservation and legal institutions

The Borderlands of the American and Canadian Wests Sterling Evans, 2006-01-01 The Borderlands of the American and Canadian Wests is the first collection of interdisciplinary essays bringing together scholars from both sides of the forty ninth parallel to examine life in a transboundary region The result is a text that reveals the diversity difficulties and fortunes of this increasingly powerful but little understood part of the North American West Contributions by historians geographers anthropologists and scholars of criminal justice and environmental studies provide a comprehensive picture of the history of the borderlands region of the western United States and Canada The Borderlands of the American and Canadian Wests is divided into six parts Defining the Region Colonizing the Frontier Farming and Other Labor Interactions the Borderlands as a Refuge in the Nineteenth Century the Borderlands as a Refuge in the Twentieth Century and Natural Resources and Conservation along the Border Topics include the borderlands environment its aboriginal and gender history frontier interactions and comparisons agricultural and labor relations tourism the region as a refuge for Mormons far right groups and Vietnam War resisters and conservation and natural resources These areas show how the history and geography of the borderlands region has been transboundary multidimensional and unique within North America *Salute e guarigione nella medicina tibetana. Segreti e fondamenti esposti da un medico occidentale* Luciano Zambotti, 2010

Idaho's Place Adam M. Sowards, 2014-07-01 Idaho s Place is an anthology of the most current and original writing on Gem State history From the state s indigenous roots and early environmental battles to recent political and social events these essays provide much needed context for understanding Idaho s important role in the development of the American West Through a creative approach that combines explorations of concepts such as politics gender and race with the oral histories of Idaho residents the very people who lived and made state history this unique collection sheds new light on the state s surprisingly contentious past Readers whether they are longtime residents or newcomers tourists or seasonal dwellers policy makers or historians will be treated to a rich narrative in which the many threads of Idaho s history entwine to produce a complete tapestry of this beautiful and complex Western state **Antiquities of Shropshire** Robert William Eyton, 1860 An Historical and Statistical Account of New South Wales John Dunmore Lang, 1837 **Make It a Green Peace!** Frank Zelko, 2013-05-30 The emergence of Greenpeace in the late 1960s from a loose knit group of anti nuclear and anti whaling activists fundamentally changed the nature of environmentalism its purpose philosophy and tactics around the

world And yet there has been no comprehensive objective history of Greenpeace's origins until now *Make It a Green Peace* draws upon meeting minutes internal correspondence manifestos philosophical writings and interviews with former members to offer the first full account of the origins of what has become the most recognizable environmental non governmental organization in the world Situating Greenpeace within the peace movement and counterculture of the 1960s Frank Zelko provides a much deeper treatment of the group's groundbreaking brand of radical media savvy direct action environmentalism than has been previously attempted Zelko traces the complex intellectual and cultural roots of Greenpeace to the various protest movements of the 1950s and 1960s highlighting the influence of Quakerism with its practice of bearing witness Native American spirituality and the non violent resistance of Gandhi Unlike the more strait laced less confrontational Sierra Club and Audubon Society early Greenpeacers smoked dope dropped acid wore their hair long and put their bodies on the line interposing themselves between the harpoons of whalers and the clubs of seal hunters to save the animals and achieve what they hoped would be a lasting transformation in the way humans regarded the natural world And while it may not have achieved its most revolutionary goals Greenpeace inarguably created a heightened awareness of environmental issues that endures to this day Narrating the key campaigns and arguments among the group's early members *Make It a Green Peace* vividly captures all the drama pathos and occasional moments of absurd comic relief of Greenpeace's tumultuous first decade

Power and Place in the North American West Richard White, John M. Findlay, 2012-09-01 Western historians continue to seek new ways of understanding the particular mixture of physical territory human actions outside influences and unique expectations that has made the North American West what it is today This collection of twelve essays tackles the subject of power and place from several angles Indians and non Indians race and gender environment and economy to gain insight into major forces at work during two centuries of western history The essays related to one another by their concern with how power is exercised in over and by western places cover a wide range of times and topics from 18th century Spanish New Mexico to 19th century British Columbia to 20th century Sun Valley and Los Angeles They encompass analyses of the concept and rhetoric of race theoretical speculations on gender and powerlessness and insights on the causes of current environmental crises

Go East, Young Man Richard Francaviglia, 2011-12-14 Transference of orientalist images and identities to the American landscape and its inhabitants especially in the West in other words portrayal of the West as the Orient has been a common aspect of American cultural history Place names such as the Jordan River or Pyramid Lake offer notable examples but the imagery and its varied meanings are more widespread and significant Understanding that range and significance especially to the western part of the continent means coming to terms with the complicated nuanced ideas of the Orient and of the North American continent that European Americans brought to the West Such complexity is what historical geographer Richard Francaviglia unravels in this book Since the publication of Edward Said's book *Orientalism* the term has come to signify something one dimensionally negative In essence the orientalist vision was an

ethnocentric characterization of the peoples of Asia and Africa and the Near East as exotic primitive others subject to conquest by the nations of Europe That now well established point which expresses a postcolonial perspective is critical but Francaviglia suggest that it overlooks much variation and complexity in the views of historical actors and writers many of whom thought of western places in terms of an idealized and romanticized Orient It likewise neglects positive images and interpretations to focus on those of a decadent and ostensibly inferior East We cannot understand well or fully what the pervasive orientalism found in western cultural history meant says Francaviglia if we focus only on its role as an intellectual engine for European imperialism It did play that role as well in the American West One only need think about characterizations of American Indians as Bedouins of the Plains destined for displacement by a settled frontier Other roles for orientalism though from romantic to commercial ones were also widely in play In *Go East Young Man* Francaviglia explores a broad range of orientalist images deployed in the context of European settlement of the American West and he unfolds their multiple significances

Nature, Place, and Story Claire Elizabeth Campbell, 2017-08-09 National historic sites commemorate decisive moments in the making of Canada But seen through an environmental lens these sites become artifacts of a bigger story the occupation and transformation of nature into nation In an age of pressing discussions about environmental sustainability there is a growing need to know more about the history of our relationship with the natural world and what lessons these places of public history regional identity and national narrative can teach us *Nature Place and Story* provides new interpretations for five of Canada's largest and most iconic historic sites two of which are UNESCO World Heritage Sites L'Anse aux Meadows Newfoundland Grand Pr Nova Scotia Fort William Ontario the Forks of the Red River Manitoba and the Bar U Ranch Alberta At each location Claire Campbell rewrites public history as environmental history revealing the country's debt to the power and fragility of the natural world and the relevance of the past to understanding climate change agricultural sustainability wilderness protection urban reclamation and fossil fuel extraction From the medieval Atlantic to modern ranchlands environmental history speaks directly to contemporary questions about the health of Canada's habitat Bringing together public and environmental history in an entirely new way *Nature Place and Story* is a lively and ambitious call for a fresh perspective on natural heritage

Wet Prairie Shannon Stunden Bower,2011-06-29 The Canadian prairies are often envisioned as dry windswept fields however much of southern Manitoba is not arid plain but wet prairie poorly drained land subject to frequent flooding *Wet Prairie* brings to light the complexities of surface water management in Manitoba from early artificial drainage efforts to late twentieth century attempts at watershed management Irregular water flow patterns challenged the checkerboard landscape of the 1872 federal Dominion Lands Act and homesteaders found their agricultural ambitions at odds with local environmental realities Thus in keeping with liberal principles the provincial government undertook substantial drainage efforts Flooding and drainage became the subjects of intense and persistent debate among provincial officials drainage experts and Manitoba residents New alliances and rivalries emerged amid shifting social political and environmental contexts with enduring consequences for both the landscapes and people of the wet prairie This account of an overlooked aspect of Prairie environmental history traces how the biophysical nature of southern Manitoba helped shape both Manitoba society and the provincial state
