Feminization of the Clergy in America Paula D. Nesbitt, 1997-04-24 Feminization is said to occur when women enter any given occupation in substantial numbers and ostensibly leads to such dynamics as sex segregation reduced opportunities for men and depressed wages and diminished prestige for the occupation as a whole Spanning more than 70 years Paula Nesbitt's study of feminization concentrates on the Episcopal Church and the Unitarian Universalist Association utilizing both statistical results and interviews to compare occupational patterns prior and subsequent to the large influx of women clergy Among her findings the author discovers that a decline in men's opportunities is evident before the 1970s preceding the great influx of women over the last two decades She also finds that increases in the number of women ordained reduced occupational prospects for other women but enhanced those for men thus contradicting the popular myth that women in the workplace are responsible for occupational decline

A Documentary History of Lutheranism, Volumes 1 and 2 Mark A. Granquist, Eric Lund, 2017-11-10 This unique collection of excerpts from Lutheran historical documents many translated here for the first time presents readers with a full picture of how the Lutheran movement developed in its thought and practice Covering not only theology but also church life popular piety and influential historical events the primary documents include theological treatises confessional statements liturgical texts devotional writings hymns letters and diaries satirical polemics political documents woodcuts and pamphlet literature This first volume covers the chronological period from Luther's first calls for reform to the development of Lutheran Orthodoxy and Pietism during the seventeenth century The judiciously selected and carefully translated texts as well as the contextualizing information provided in each chapter's introductory essay acquaint readers with the turbulence and fervor of this revolutionary Christian movement its struggles for survival and consolidation and its further evolution up to the dawn of the Enlightenment

Women and Ordination in the Christian Churches Ian Jones, Kirsty Thorpe, Janet Wootton, 2011-11-03 The growth of women's ordained ministry is one of the most remarkable and significant developments in the recent history of Christianity This collection of essays brings together leading contributors from both academic and church contexts to explore Christian experiences of ordaining women in theological sociological historical and anthropological perspective Key questions include How have national denominational and ecclesial cultures shaped the different ways in which women's ordination is debated and or enacted What differences have women's ordained ministry and debates on women's ordination made in various church contexts What unfinished business remains in both congregational and wider ministry How have Christians variously conceived ordained ministry which includes both women and men How do ordained women and men work together in practice What have been the particular implications for female clergy And for male clergy What distinctive issues are raised by women's entry into senior ordained leadership positions How do episcopal and non episcopal traditions differ in this

The Church as Koinonia of Salvation Randall R. Lee, Jeffrey Gros, 2005 This important document proposes new clarifications and pastoral steps that will serve the pilgrimage toward full unity It provides the biblical historical and theological foundations for a common Catholic Lutheran understanding of the church The text carefully links the biblical doctrine of justification to the development of the church in the New Testament as a community of salvation whose structures and ministries serve the church s mission to the human family A detailed exposition is given to the development of the ministries and structures in the church councils dioceses parishes bishops presbyters and the Petrine ministry Book jacket

Ordaining Women Mark Chaves, 1999 Why does a denomination prohibiting women clergy support parishes run by women Why does a denomination opt to ordain women when

there are few women seeking to join that clergy And why have some denominations ordained women so much earlier than others In a revealing examination of the complex relationship among religion social forces and organizational structure *Ordaining Women* draws examples and data from over 100 Christian denominations to explore the meaning of institutional rules about women's ordination Combining historical and sociological perspectives Mark Chaves deftly shows that formal institutional rules about ordination often diverge from the actual roles of women and are best understood as symbolic gestures in favor of or in opposition to gender equality *Ordaining Women* concludes that external pressures from the women's movement and ecumenical pressure expressed through interdenominational organizations such as the National Council of Churches influence ordination practices At the same time internal factors such as having a source of religious authority that is considered superior to modern principles of equal rights also explain why some denominations ordain women much earlier than others Surprisingly the Bible forbids it does not account for policies even among fundamentalists and other biblical inerrantists Chaves' historical and comparative approach offers a revealing analysis of how the internal denominational debates have changed over time becoming more frequent more politicized and more contentious The skillful delineation of forces affecting debates and policies about women's ordination makes this book an important contribution to our understanding of religious organizations and of gender equality
