The Fourth Service Merchantmen At War 1939 1945:

The Fourth Service John Slader,2010 **The Fourth Service** John Slader,2010-06-04 Here at last is the true story of the merchant fleet during World War II the non fighting service in which 32 000 men died yet whose essential role has never been fully appreciated The author himself a member of the service from 1941 47 relates the stories of merchantmen and their crews with unique insight From the early days of the war to the day of victory on the Rhine through combined operations in the Mediterranean and at Normandy the complete operation of the fleet is examined with vivid accounts of the horrific losses undergone the heroism of the crews and the sacrifices endured to ensure that Britain received its essential supplies of food oil and raw materials Highly illustrated this book will be absorbing for the war historian maritime enthusiast and general reader alike *The Naval War in South African Waters, 1939-1945* Evert Kleynhans,2022-03-23 The Naval War in South African Waters 1939 1945 provides a critical reappraisal of the naval war waged in South African waters during the Second World War The book investigates this broad topic by focussing on several interrelated aspects such as the wartime strategic importance of South African waters the rival Axis and Allied naval strategies in the southern oceans the development of the South African coastal defence system the full extent of the Axis naval operations in the southern oceans the naval intelligence war and finally the antisubmarine war waged in South African waters Based on extensive archival research in South Africa and the United Kingdom and supplemented by a wealth of secondary material the book introduces a fresh in depth discussion on a largely forgotten episode of South African military history *The Fourth Service* John Slader,1995 Here at last is the true story of the merchant fleet during World War II the non fighting service in which 32 000 men died yet whose essential role has never been fully appreciated The author himself a member of the service from 1941 47 relates the stories of merchantmen and their crews with unique insight From the early days of the war to the day of victory on the Rhine through combined operations in the Mediterranean and at Normandy the complete operation of the fleet is examined with vivid accounts of the horrific losses undergone the heroism of the crews and the sacrifices endured to ensure that Britain received its essential supplies of food oil and raw materials Highly illustrated this book will be absorbing for the war historian maritime enthusiast and general reader alike *Coastal Convoys 1939-1945* Nick Hewitt,2009-04-20 Using official records from the National Archives personal accounts from the Imperial War Museum and other sources Coastal Convoys 1939 1945 The Indestructible Highway describes Britains dependence on coastal shipping and the introduction of the convoy system in coastal waters at the outset of the war It brings to life the hazards of the German mining offensive of 1939 the desperate battles fought in coastal waters during 1940 and 1941 and the long struggle against German air and naval forces which lasted to the end of the Second World War Reference is also made to the important role played by coasters during the Dunkirk evacuation in 1940 and the Normandy landings in 1944 **South Shields at War 1939-45** Craig Armstrong,2020-10-28 A tribute to the WWII contributions made by this northeastern English town from the historian

and author of RAF Bomber Command at War 1939 1945 South Shields and its near neighbors such as Jarrow were key communities in the national war effort despite their relatively small size Located on the East Coast South Shields was situated at the key entry to the strategically important River Tyne and was well defended against enemy attack Huge numbers of South Shields men and women volunteered for wartime service while many others worked in vital wartime industries The town had a particularly high number of men serving in the Merchant Navy and the South Shields mariners suffered very heavy casualties South Shields also had a multi cultural population with a large number of foreign or aliens as they were referred to seamen and an especially large and active Yemeni community Indeed South Shields was to become the first town in Britain to have a purpose built mosque Although there were tensions amongst the population due to cultural and racial differences the Yemeni community played a considerable and loyal role in the war effort The book also looks at the considerable contribution made by the men and women who volunteered for the ARP and Civil Defence Services The towns of Tyneside including South Shields were heavily attacked by the Luftwaffe and the blitzes of 1941 hit the town particularly hard No member of the community was left untouched by the war whether they were evacuees workers servicemen or just civilians struggling to maintain a home in wartime Britain *The Ocean Class of the Second World War* Malcolm

Cooper, 2023-01-04 This new book tells the story of the Ocean class of standard cargo ships their design building and careers and the author places them firmly in the context of the battle of the Atlantic which was raging at the time of the first launchings They entered the vanguard of the Allied shipping effort at a time when the German U boat threat was at its most dangerous and British shipping resources were stretched to the limit They were deployed in the North Atlantic on the long supply routes around Africa to the Middle East in the Russian convoys in operations in support of the invasions of North Africa and Italy and the land campaigns which followed in the D Day landings and later amphibious operations on the south coast of France Finally some of the class joined an invasion force making its way towards Malaya when Japan surrendered in August 1945 The Oceans paid a heavy price for these accomplishments one third of the class being lost to torpedoes bombs or mines in places as far apart as the Florida coast the Norwegian Sea the Bay of Algiers and the Gulf of Oman While these achievements alone would merit an important place in histories of the war at sea the impact of the Oceans stretched far beyond the direct contribution of the ships themselves The yards where they were built also served as models for a series of new American shipyards designed to mass produce cargo vessels with such speed and in such volume as to completely reverse the mathematics of attrition which had run so badly against the Allies into 1942 Even more important the Oceans blueprints were used as the basis for the American Liberty ship the 2 700 strong fleet which finally tilted the balance of the war at sea decisively in the Allies favor and went on to underpin the post war renewal of the world merchant fleet This comprehensive new history based on extensive archival research and lavishly illustrated with contemporary photographs restores the Oceans to their rightful place in history The ships design antecedents are explained and their ordering financing

and construction analyzed in full Wartime operations are covered in depth by theater and with full details of war losses and other casualties The book concludes with an assessment of their subsequent peacetime careers and a comparison to other war built designs This is a model history of a highly significant class of ship Shipping Company Losses of the Second World War Ian M. Malcolm,2013-07-01 During the Second World War the Merchant Navy suffered a higher percentage loss than any of the British armed forces but despite this extraordinary fact few people today are aware of it In total 33 000 merchant seamen died while others were severely injured both physically and mentally This book is an important volume attempting to dispel the ignorance and for the first time brings together a wealth of information concerning ship losses including such details as ships names their captains the route they were lost on date and positions when lost loss of life and many other particulars A former wartime Merchant Navy man himself Malcolm presents a compendium of shipping company losses that is staggering in scale This work will be of great value to shipping enthusiasts and anyone interested in the war at sea **The Norwegian Merchant Fleet in the Second World War** Kenneth L. Privratsky,2023-07-30 At the outbreak of the Second World War Britain desperately short of merchant shipping turned to the Norwegians who agreed to loan several hundred of its modern cargo and tanker ships In early 1940 when Hitler invaded Norway both the British and Germans rushed to seize the remainder of the fleet King Haakon VII and his government now fleeing from Nazi occupation refused to relinquish control of this vital national asset Instead they nationalized the fleet and established the Norwegian Shipping and Trade Mission Nicknamed Nortraship it became overnight the largest shipping company the world had seen with a thousand ships and offices on six continents Generously made available to Great Britain it became a priceless Allied asset without which victory over Germany would arguably have been impossible By the end of the war about half Nortraship s fleet had been lost to enemy action The Norwegian Merchant Fleet in the Second World War is a superbly researched addition to Second World War history being the first detailed account in English of Norway s critical contribution to the Allies As well as telling this little known but hugely significant story the author covers the controversies that developed and persist into the present day The Real Cruel Sea Richard Woodman,2011-07-06 The renowned maritime historian s compelling study of the vital role played by merchant seamen during WWII in the Battle of the Atlantic For the British the Battle of the Atlantic was a fight for survival They depended on the safe transit of hundreds of merchant ships carrying food and supplies from America to feed the country and keep the war effort going On top of that they had to export manufactured goods to pay for it all Britain s merchant navy a disparate collection of private vessels had become the country s lifeline While its seamen were officially non combatants they bravely endured the onslaught of the German U boat offensive until Allied superiority overwhelmed the enemy Drawing extensively on first hand sources Richard Woodman establishes the importance of the British and Allied merchant fleets in the struggle against Germany This important study elevates the heroic seamen who manned these ships to their rightful place in the history of the Second World War
