The Fractured Image:

Fractured Images Mary Noel Pettis, 1978 **On the Fracture Behaviour and the Fracture Pattern Morphology of Tempered Soda-Lime Glass** Navid Pour-Moghaddam, 2019-11-08 The main criteria for assessing the load bearing behaviour and risk potential of monolithic glass are its fragmentation and the morphology of the fragments These depend strongly non linearly on the strain energy density present in the glass at the time of fracture which can be converted into fracture energy Thus the design and optimization of structural glazing in engineering requires both knowledge of the relevant parameters and mechanisms during the fracture process in glass and an understanding of the characteristics of the fracture structure Based on fracture mechanics considerations and comprehensive experimental investigations various aspects and physical quantities of fracture behaviour as well as characteristics and parameters of fracture pattern morphology of fragmented tempered soda lime glass were studied and correlated with the stored strain energy The relationship between fragmentation behavior and strain energy was elaborated using the energy criterion in Linear Elastic Fracture Mechanics LEFM related to the initial strain energy before fragmentation and in the post fracture state Furthermore a machine learning inspired approach for the prediction of 2D macro scale fragmentation of tempered glass was developed and elaborated based on fracture mechanics considerations and statistical analysis of the fracture pattern morphology A method was deduced and applied in which the fracture pattern of tempered glass is predicted and simulated by Voronoi tessellation of point patterns based on Bayesian spatial point statistics fed with energy conditions in LEFM *Intelligent Manufacturing and Energy Sustainability* A.N.R. Schedlock, 2012-08-31 The lure of cowgirls and cowboys has hooked the American imagination with the lure of freedom and adventure since the turn of the twentieth century The cowboy and cowgirl played in the imagination and made rodeo into a symbolic representation of the Western United States As a sport that is emblematic of all things Western rodeo is a phenomenon that has since transcended into popular culture Rodeo s attraction has even spanned oceans and lives in the imaginations of many around the world From the modest start of this fantastic sport in open fields to

celebrate the end of a long cattle drive or to settle a friendly who s the best bet between neighboring ranches rodeo truly has grown into an edge of the seat money drawing and crowd cheering favorite pastime However rodeo has diverse history that largely remains unaccounted for unexamined and silenced In *Gender Whiteness and Power in Rodeo* Tracey Owens Patton and Sally M Schedlock visually explore how race gender and other issues of identity complicate the mythic historical narrative of the West The authors examine the experiences of ethnic minorities specifically Latinos American Indians and African Americans and women who have continued to be marginalized in rodeo Throughout the book Patton and Schedlock questioned the binary divisions in rodeo that exists between women and men and between ethnic minorities and Whites divisions that have become naturalized in rodeo and in the mind of the general public Using iconic visual images along with the voices of the marginalized Patton and Schedlock enter into the sometimes acrimonious debate of cowgirls and ethnic minorities in rodeo
