The Framework Of Fiction Socio Cultural Approaches To The Novel:

The Framework of Fiction John Bull, 1988 **The Regional Novel in Britain and Ireland** K. D. M. Snell, 1998-12-10
The Regional Novel In Britain and Ireland 1800 1990 will be of interest to literary and social historians as well as cultural critics

The Split Subject of Narration in Elizabeth Gaskell's First Person Fiction Anna Koustinoudi, 2011-12-16
The Split Subject of Narration in Elizabeth Gaskell's First Person Fiction analyzes a number of Elizabeth Gaskell's first person works through a post modern perspective employing such theoretical frameworks as psychoanalytic theory narratology and gender theory It attempts to explore the problematics of Victorian subjectivity bringing into focus the ways in which both her realistic and Gothic texts undercut and interrogate post Romantic assumptions about an autonomous and coherent speaking and or narrating subject The essential argument of the book is that the mid nineteenth century narrating I in its communal voyeuristic and Gothic manifestations emerges as painfully divided lacking unstable ailing and hence unreliable pre figuring at the same time later forms of self conscious narration in fiction Furthermore it is also exposed as performative one that can be seen as a simulacrum without an original and consequently at odds with post Romantic empiricist assumptions about the factuality centrality and rationality of the human subject while at the same time clinging to illusions of autonomy Plagued by its own self awareness the narrating I is alienated both from itself as well as from those it attempts to represent including its own narrated counterpart To this effect it argues that throughout a trajectory of configurations psychic investments and imaginary identifications embedded in and conditioned by the workings of desire and ideology both of which underpin discursive and representational practices narrative subjectivity in Gaskell's first person fiction manifests itself as the product of a misrecognized encounter between the subject who narrates and that which is being narrated Both are essentially unable to see their split character and the alienating chasm opened up between them for the former on the level of narration and for the latter on a thematic level

Reading Primary Sources Miriam Dobson, Benjamin Ziemann, 2020-06-01
Now in its second edition *Reading Primary Sources* explores the varied traditions in source criticism and through specific examples illustrates how primary sources can be read and used in historical research Part I of this two part volume begins by establishing the reader's understanding of source criticism with an overview of both traditional and new methodological approaches to the use of primary documents Taking into account the huge expansion in the range of primary sources used by historians Part II includes chapters on surveillance reports testimony and court files in addition to more traditional genres such as letters memoranda diaries novels newspapers political speeches and autobiography For the new edition each chapter now includes a checklist that suggests an easy to follow sequence of steps for interpreting a specific source genre enabling students to understand how the sources should be read what they have to offer and the pitfalls of their interpretation In addition to new discussions about the availability of digitised source materials a new chapter on social surveys unlocks the potential of these widely used primary sources Taking examples of sources from many European countries and the United States and providing

up to date information on the most widely used textual sources this book is the perfect companion for every student of history who wants to engage with primary sources *James Hogg* Corinne de Popow,2004-10 James Hogg a Scottish writer was the founder of the psychological novel He perfectly understood the notions of dream and reality the danger of the voyage in Nancy Chilshom the world of the illusions the lure madness and strangeness towards the reality of the tragedy the kingdom of the fairies death the finality of art the supernatural the Devil and sorcery in Scotland the Scotland England couple the female nation and the male devastator the carnival of the masks and the reality of his Masonic initiation at the end of his life

D. H. Lawrence Paul Poplawski,1996-06-24 D H Lawrence remains one of the most popular and studied authors of the 20th century This book is a comprehensive but easy to use reference guide to Lawrence s life works and critical reception The volume has been systematically structured to convey a coherent overall sense of Lawrence s achievement and critical reputation but it is also designed to enable the reader who may be interested in only one aspect of Lawrence s career perhaps even in only one of his novels or stories to find relevant information quickly and easily without having to read other parts of the text The book begins with an original biography by John Worthen one of the world s foremost authorities on Lawrence s life and work The chapters that follow provide separate entries for all of Lawrence s works except for individual poems and paintings with critical summaries discussions of characters and details of settings There is also a complete overview of Lawrence and film with the most complete listing available of film adaptations of his works and of criticism relating to them Each section of the book provides comprehensive primary and secondary bibliographical data including citations for the most recent scholarly studies Maps and chronologies further trace Lawrence s travels and his development over time **Edinburgh History of the Book in Scotland, Volume 4: Professionalism and Diversity 1880-2000** David Finkelstein,2007-11-23 In this volume a range of distinguished contributors provide an original analysis of the book in Scotland during a period that has been until now greatly under researched and little understood The issues covered by this volume include the professionalisation of publishing its scale technological developments the role of the state including the library service the institutional structure of the book in Scotland industrial relations union activity and organisation women and the Scottish book and the economics of publishing Separate chapters cover Scottish publishing and literary culture publishing genres the art of print culture distribution and authors and readers The volume also includes an innovative use of illustrative case studies *German Encounters with Modernity* Katherine Roper,2023-08-21 The novels of Imperial Berlin comprise a body of material of immense historical richness Their importance as a historical source lies in the intricate connections their authors make between the individual lives of characters a modernizing city and a newly unified nation These connections and the values and assumptions behind them are the focus of this study In creating these connections as fictional representations of their society Berlin novelists not only reflected societal values but also were molding them by contributing to the social discourse in which they evolved Taken together their works constitute a significant piece in the

complicated puzzle of how the society of Imperial Germany as it underwent the social and economic upheavals of modernization transformed the rule of traditional elites into new authoritarian forms Using individual works to analyze fictional treatment of a spectrum of problems of nationhood and modernity I argue that Berlin novelists were using their works for two significant social purposes to search for a German identity that spoke to modern realities and to envision a particularly German revolution that would bring genuine national greatness As the young nation matured however these visions became increasingly elusive They were impeded I suggest by specific obstacles including traumatic historical events inherited cultural ideals powerful mythologies social anxieties and political indifference This book documents what Berlin novelists conceived as a struggle for Germany's soul and traces the stages of its defeat *The Eighteenth Century* ,1974

Introducing Literary Studies Richard Bradford,1996 A single volume comprehensive introduction to English literature Brings together 30 units of study organized into three major parts the basics of structure and criticism chronology and critical theories and perspectives This is the first book to fill the gap between introductory studies of single authors genres and periods and standard references such as handbooks and glossaries Students of English literature
