The Frankfurt Parliament 1848 1849:

The Frankfurt Parliament, 1848-1849 Frank Eyck, 1968 **Literature, the Volk and the Revolution in Mid-nineteenth Century Germany** Michael Perraudin, 2000 Between the revolutions of 1830 and 1848 poverty reached new extremes in Germany as in other European countries and gave rise to a class of disaffected poor leading to the widespread expectation of a social revolution Whether welcomed or feared it dominated private and public debate to a larger extent than is generally assumed as is shown in this study on the reflections in literature of what was called the Social Question Examining works by Heine Eichendorff Nestroy B chner Grillparzer and Theodor Storm the author reveals an acute awareness of political issues in an era in literature which is often seen as tending to quiescence and withdrawal from public preoccupations The European Revolutions, 1848-1851 Jonathan Sperber, 1994-01-28 A student textbook designed to introduce in an accessible manner all the principal themes and problems of this period in European history *The 1848 Revolutions in German-Speaking Europe* H.J. Hahn, 2014-06-06 In 1848 the continent of Europe was rocked by revolutions only Great Britain and Russia remained relatively immune to the upheaval Most spectacularly the Revolutions swept across the German speaking lands of central Europe with the newly released forces of nationalism and mass popular protest smashing the reactionary Metternich regimes which had held sway since the defeat of Napoleon The Metternich system was dead nationalism and national self determination asserted themselves as the dominant dynamic forces of continental Europe in the later nineteenth century This impressive history examines the political and social implications of the 1848 Revolutions for the future destiny and shape of Europe as a whole and explores the wider forces at play in the German lands of nineteenth century Europe *Encyclopedia of the Age of Imperialism, 1800-1914* Carl C. Hodge, 2007-11-30 In 1800 Europeans governed about one third of the world s land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism *The Origins of Modern Germany* Geoffrey Barraclough, 1984 No one is likely to underrate the importance for the rest of Europe and indeed for world history of the German reaction beginning in the days of Bismarck to the crisis of modern industrial capitalism writes Professor Barraclough but the peculiar character of that reaction is only comprehensible in the light of Germany s past Factors deeply rooted in German history constituted an iron framework a mold within which were cast all German efforts from 1870 to 1939 to cope with the problems of modern capitalist society **The Habsburg Empire** Pieter M. Judson, 2016-04-25 This panoramic reappraisal shows why the Habsburg Empire mattered for so long to so many Central Europeans across divides of

language religion and region Pieter Judson shows that creative government and intractable problems the far flung empire could not solve left an enduring imprint on successor states Its lessons are no less important today *German Diplomatic Relations 1871-1945* William Young,2006-09-04 The continuity issue has been a theme in German historiography for half a century Historians have examined the foreign policy of Wilhelmine and Nazi Germany that led to two world wars Dr William Young examines the continuity of German Foreign Office influence in the formulation of foreign policy under the leadership of Otto von Bismarck 1862 1890 Kaiser William II 1888 1918 the Weimar Republic 1919 1933 and Adolf Hitler 1933 1945 He stresses the role and influence of strong German leaders in the making of policy and the conduct of foreign relations *German Diplomatic Relations 1871 1945* will be of value to individuals interested in the history of Germany Modern Europe and International Relations

German and United States Colonialism in a Connected World Janne Lahti,2021-01-28 This book contributes to global history by examining the connected histories of German and United States colonial empires from the early nineteenth century to the Nazi era It looks at multiple and multidirectional flows transfers and circulations of ideas people and practices as Germany and the US were embedded in and created by an interconnected world of empires This relationship was not exceptional but emblematic of the diverse entanglements that created colonial globality Colonial entanglements between Germany and the United States took on many forms but these shared and intersecting histories have been underanalyzed Traditionally Germany and the United States have been understood to have taken respectively an authoritarian and liberal path into modernity But there is no neat dichotomy as the contributors to this book illustrate There are many more similarities than have previously been appreciated and they are the result of multilayered entanglements made visible via conquest settler societies racialization and rule of difference Building on present historiographies of empires colonialism and globalization this book introduces new analytical possibilities for examining these two relatively understudied empires alongside each other as well as at their intersections Chapter 1 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)
