The Front Porch Revolution Robert H. Lengel, 2018-07-18 A piece of music is more than the sum and sequence of its notes The spaces between the notes the rests or silences are just as essential Without those spaces the notes do not properly relate to each other and even the most profound composition degrades into mere noise Front porches metaphorically represent those rest spaces in our lives and they are vanishing Without them we are denying ourselves access to our music and possibility and the evidence is clear at all levels of interaction The social and political discourse in this country has of late eroded into noise and acrimony dialogue having been abandoned for weaponized partisan monologues Diatribes and rhetoric are gleefully accelerated like charged particles online and on competing TV news and talk radio shows In fact this dynamic is experienced in meetings of any scale where diverse perspectives clash around topics we care about But ask yourself what is being accomplished beyond gridlock frayed relationships and destructive polarization We need to meet in new ways The Front Porch Revolution is about the need to reassert true conversation and dialogue and reaffirm an earnest commitment to genuine communication If anything is to be accomplished and there is much that needs to be accomplished we must be able to hear ourselves think and be present with our personal stories that give context to that thinking This is more likely to happen on front porches than on the floor of Congress in board rooms in classrooms or on Facebook or Twitter Viewing the world from the front porch invites a new way of thinking about our communication challenges leadership and what we have become in the absence of front porches Based on decades of research and first hand experience at the Center for Professional Excellence at the University of Texas at San Antonio The Front Porch Revolution maps out a lucid thoughtful and hopeful path forward to possibility
