integral to the daily life of ancient Israel. It accompanied activities as diverse as manual labor and royal processions. At key junctures and in core institutions, musical tones were used to deliver messages, convey emotions, strengthen communal bonds, and establish human-divine contact. This book explores the intricate and multifaceted nature of biblical music through a detailed look into four major episodes and genres: the Song of the Sea (Exod 15), King Saul and David's harp (1 Sam 16), the use of music in prophecy, and the Book of Psalms. This investigation demonstrates how music helped shape and define the self-identity of ancient Israel.

**Nature and Scripture in the Abrahamic Religions: Up to 1700 (2 vols)** Scott Mandelbrote, Jitse van der Meer, 2009-01-31  
The four companion volumes of *Nature and Scripture in the Abrahamic Religions* contribute to a contextual evaluation of the mutual influences between scriptural exegesis and hermeneutics on the one hand and practices or techniques of interpretation in natural philosophy and the natural sciences on the other. We seek to raise the low profile this theme has had both in the history of science and in the history of biblical interpretation. Furthermore, questions about the interpretation of scripture continue to be provoked by current theological reflection on scientific theories. We also seek to provide a historical context for renewed reflection on the role of the hermeneutics of scripture in the development of theological doctrines that interact with the natural sciences.
